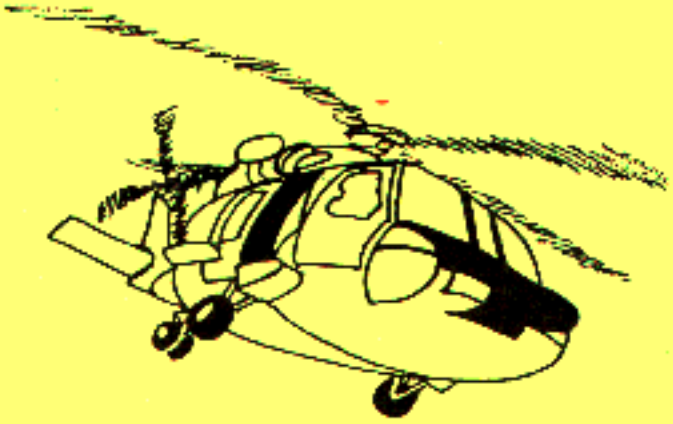
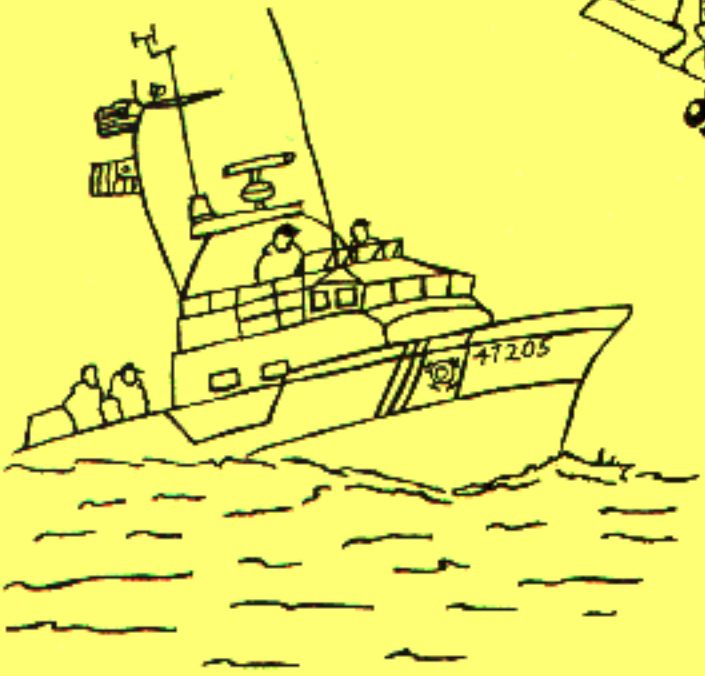
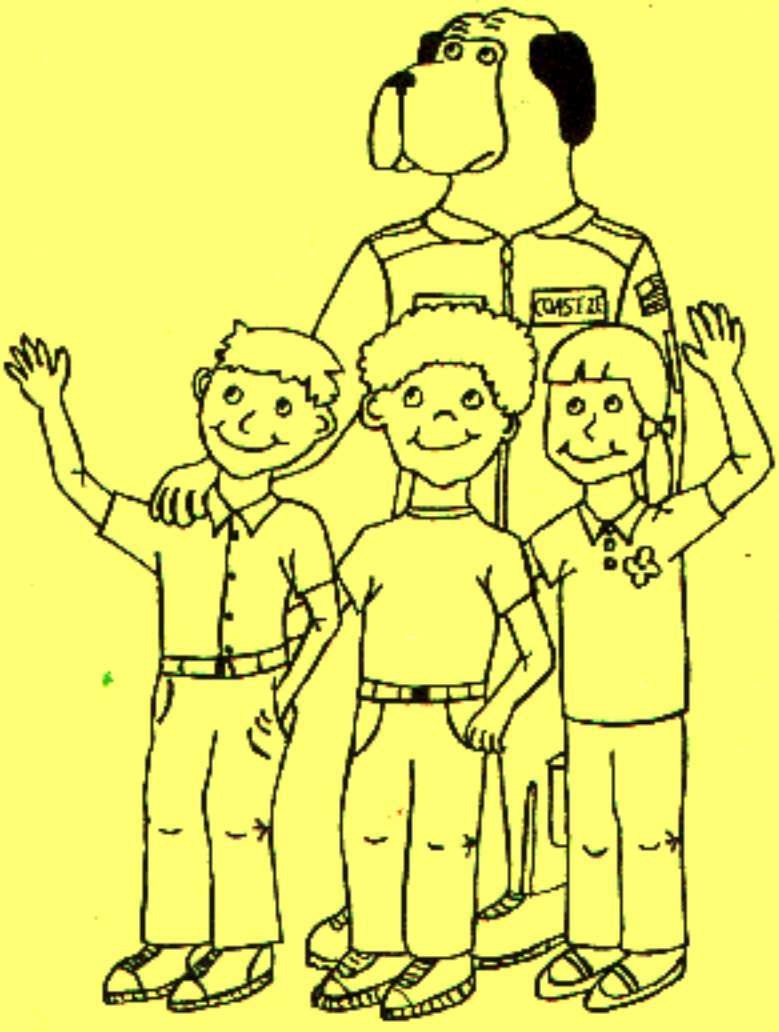
COASTIE

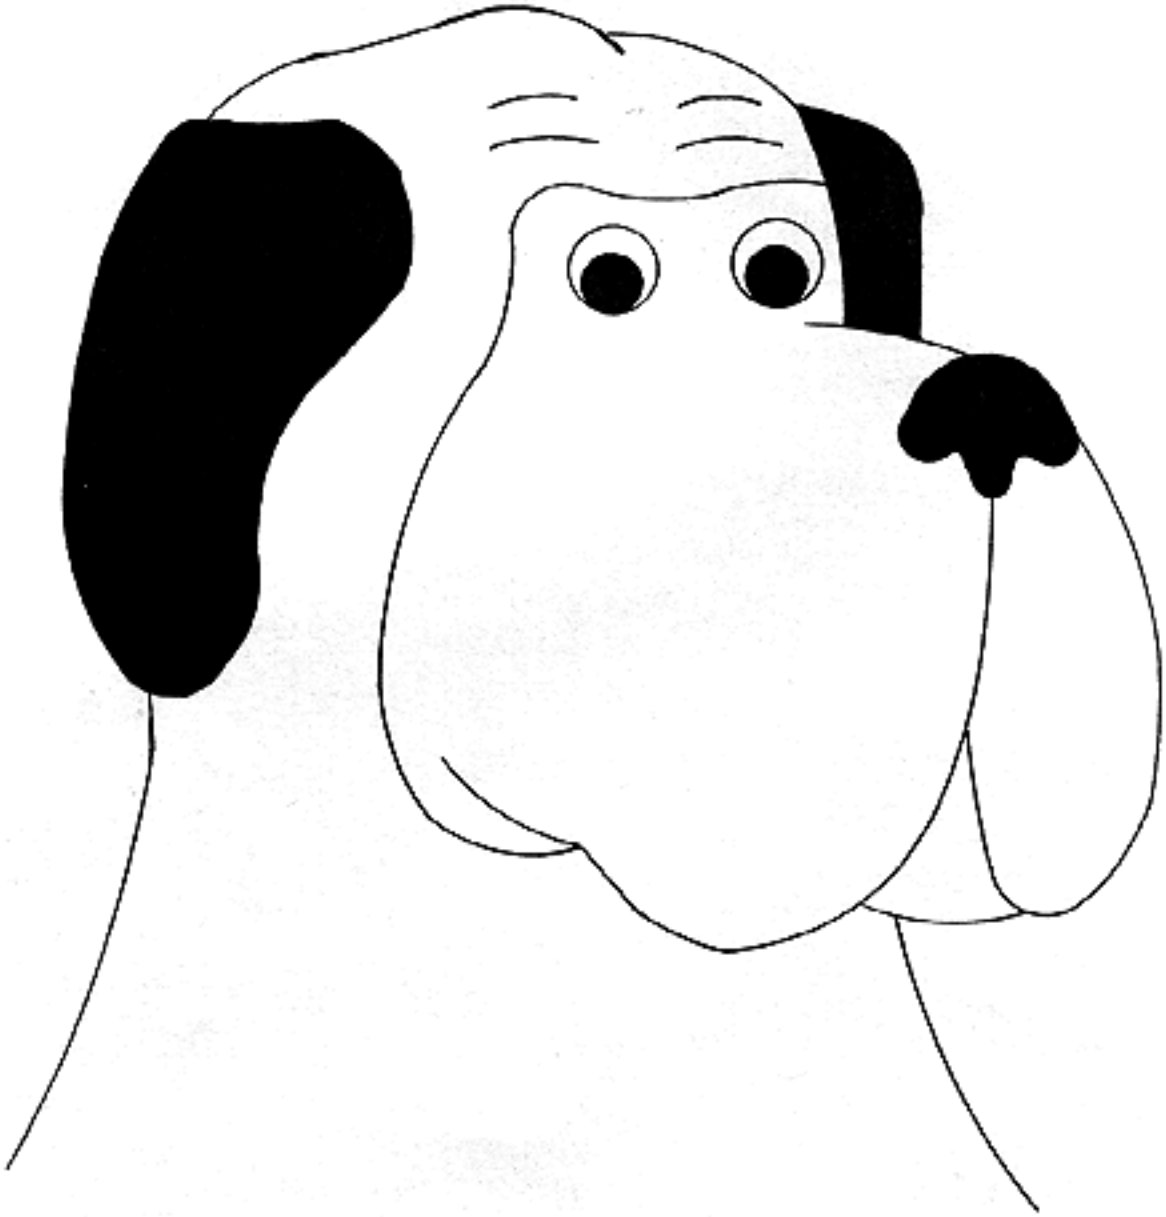
THE COAST GUARD SAFETY DOG COLORING BOOK





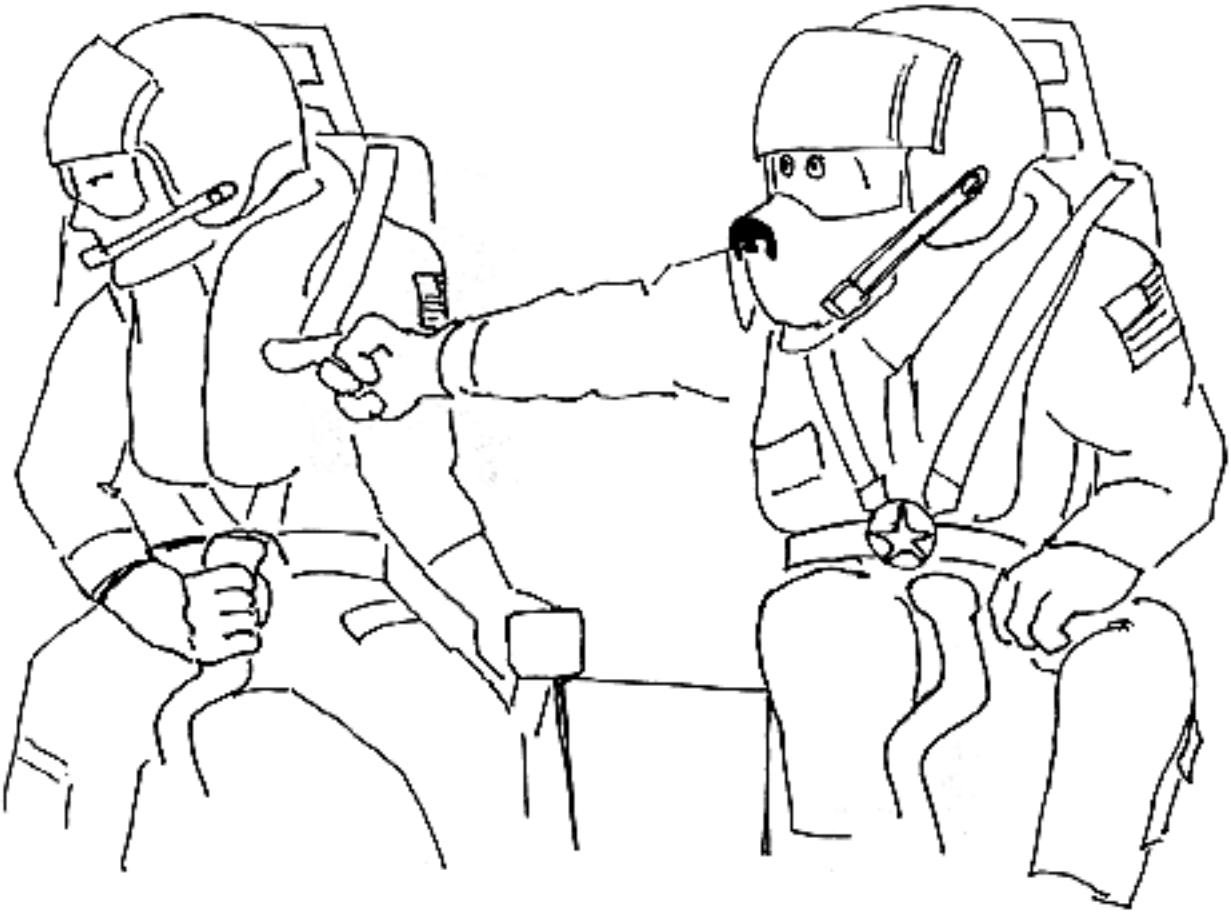


UNITED STATES COAST GUARD

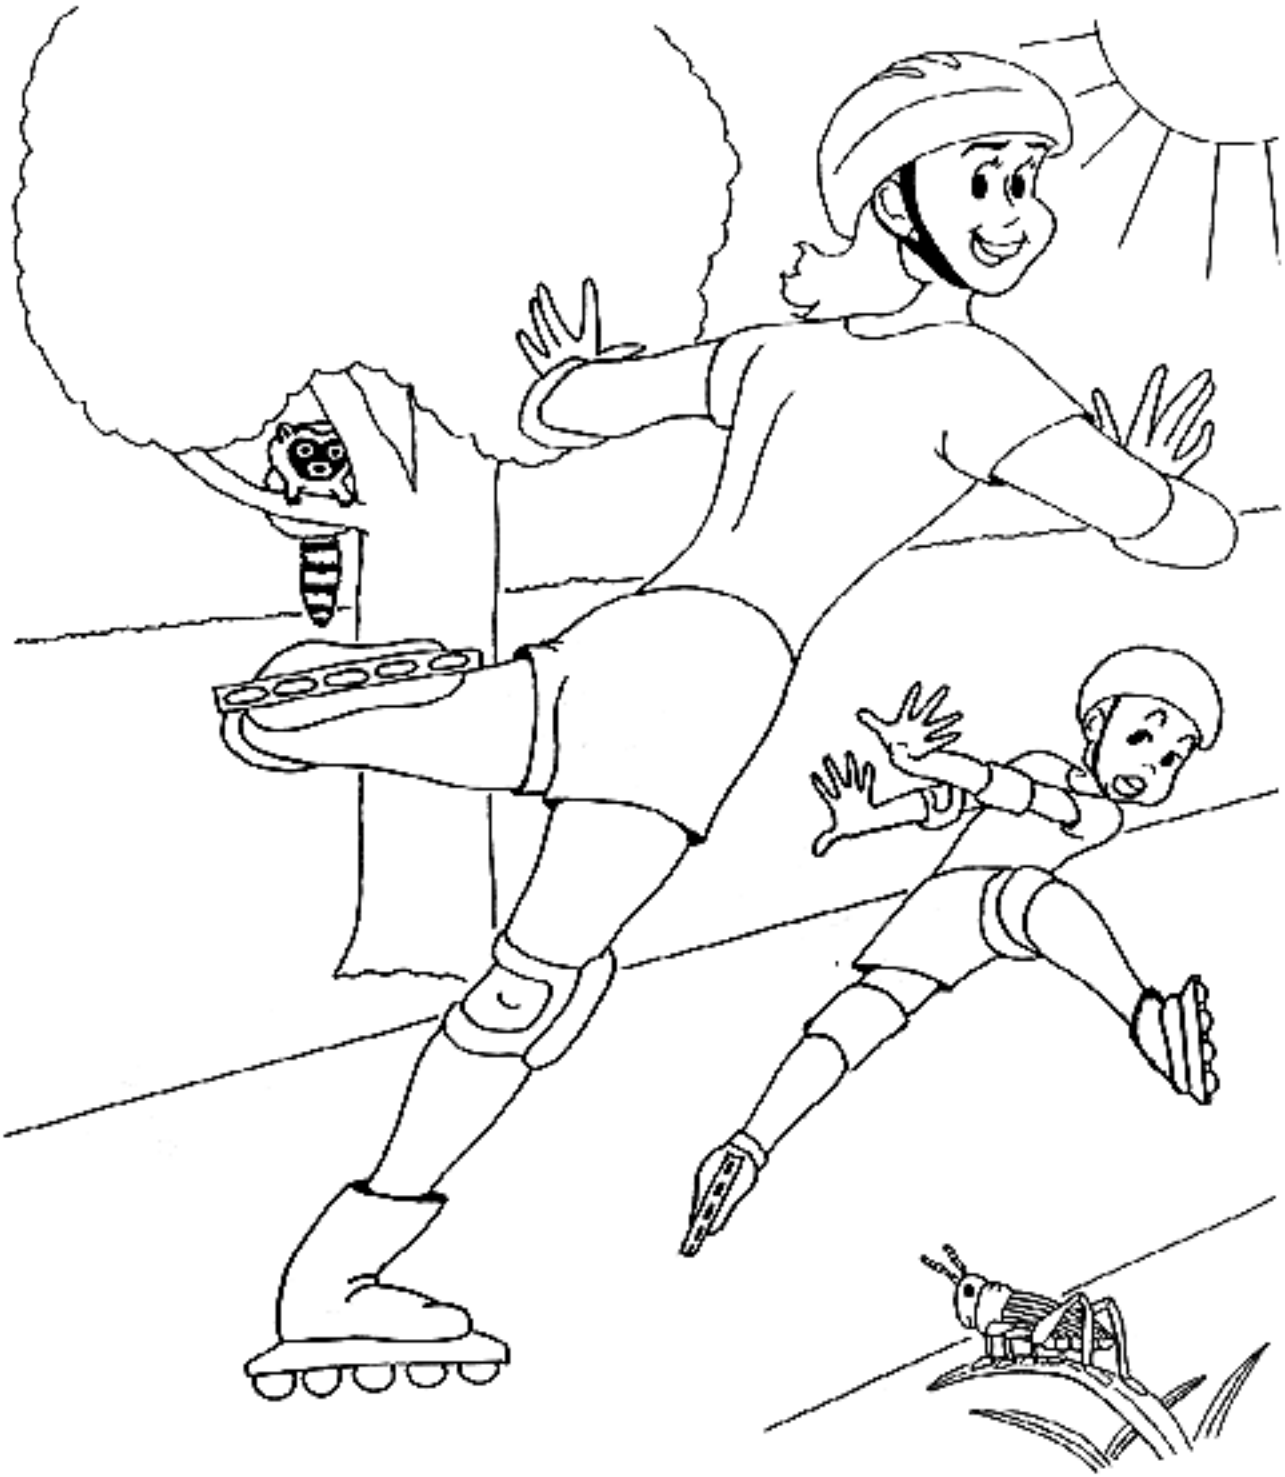


Hi! I'm Coastie and I care about you! I am going to talk about safety and show you some safe things the Coast Guard does. Safety is very important and can be fun. You can be safe too!

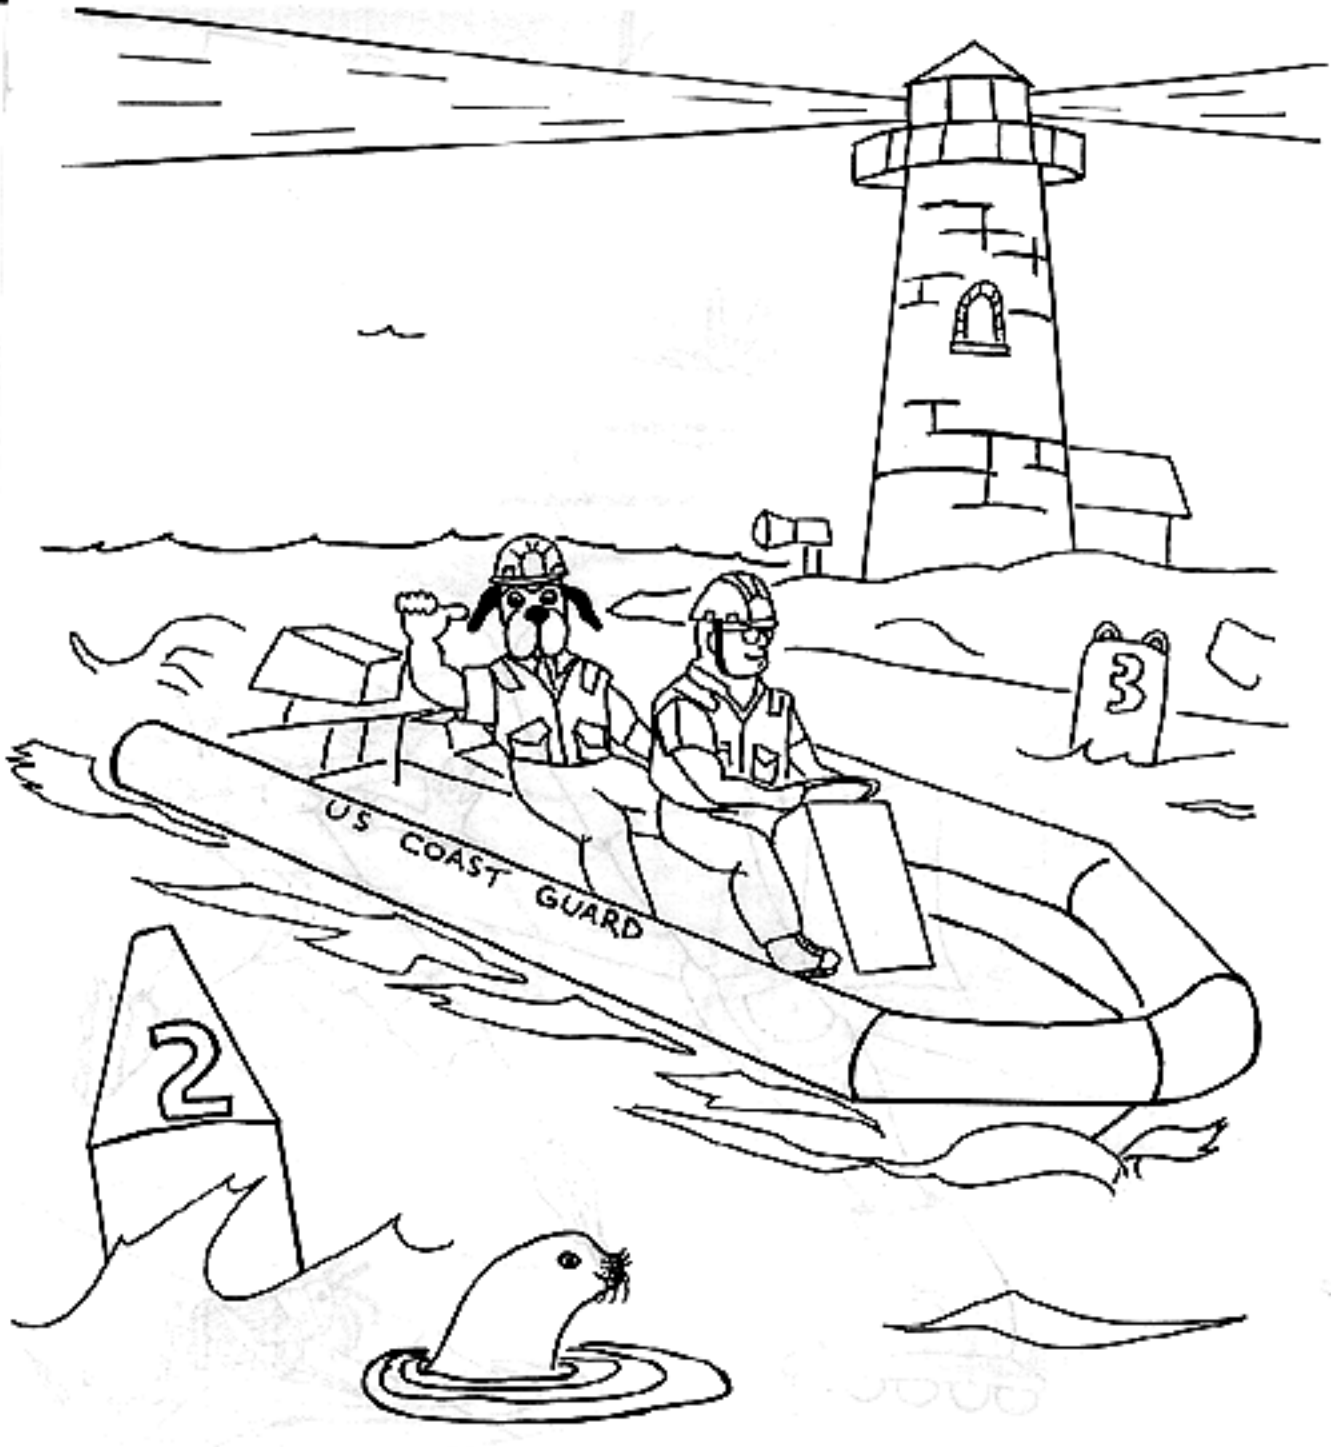
If you need the police, fire department, or an ambulance; you use a phone and dial 9 - 1 - 1. People on the water call the Coast Guard. The Coast Guard helps people when they are in danger. They also fight crime and protect our shores.



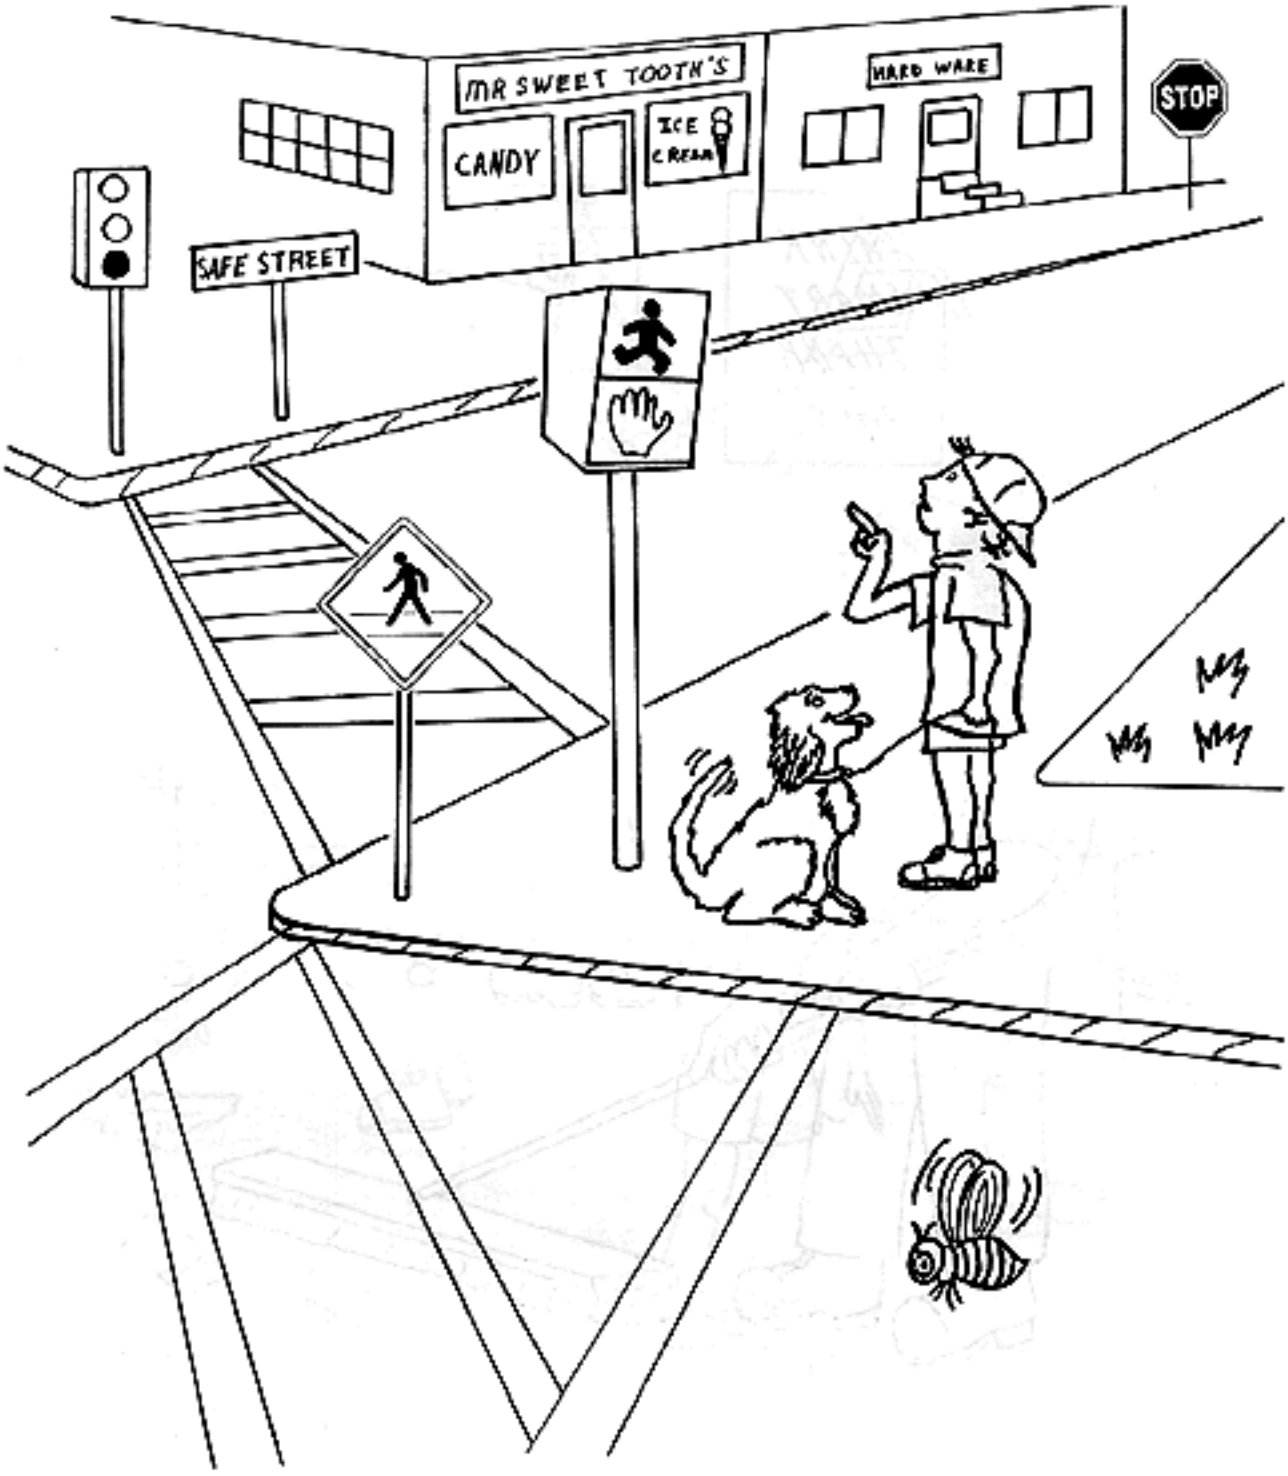
Coast Guard helicopter crews wear special helmets to protect them.



To protect yourself, always wear your helmet when skating or bike riding.



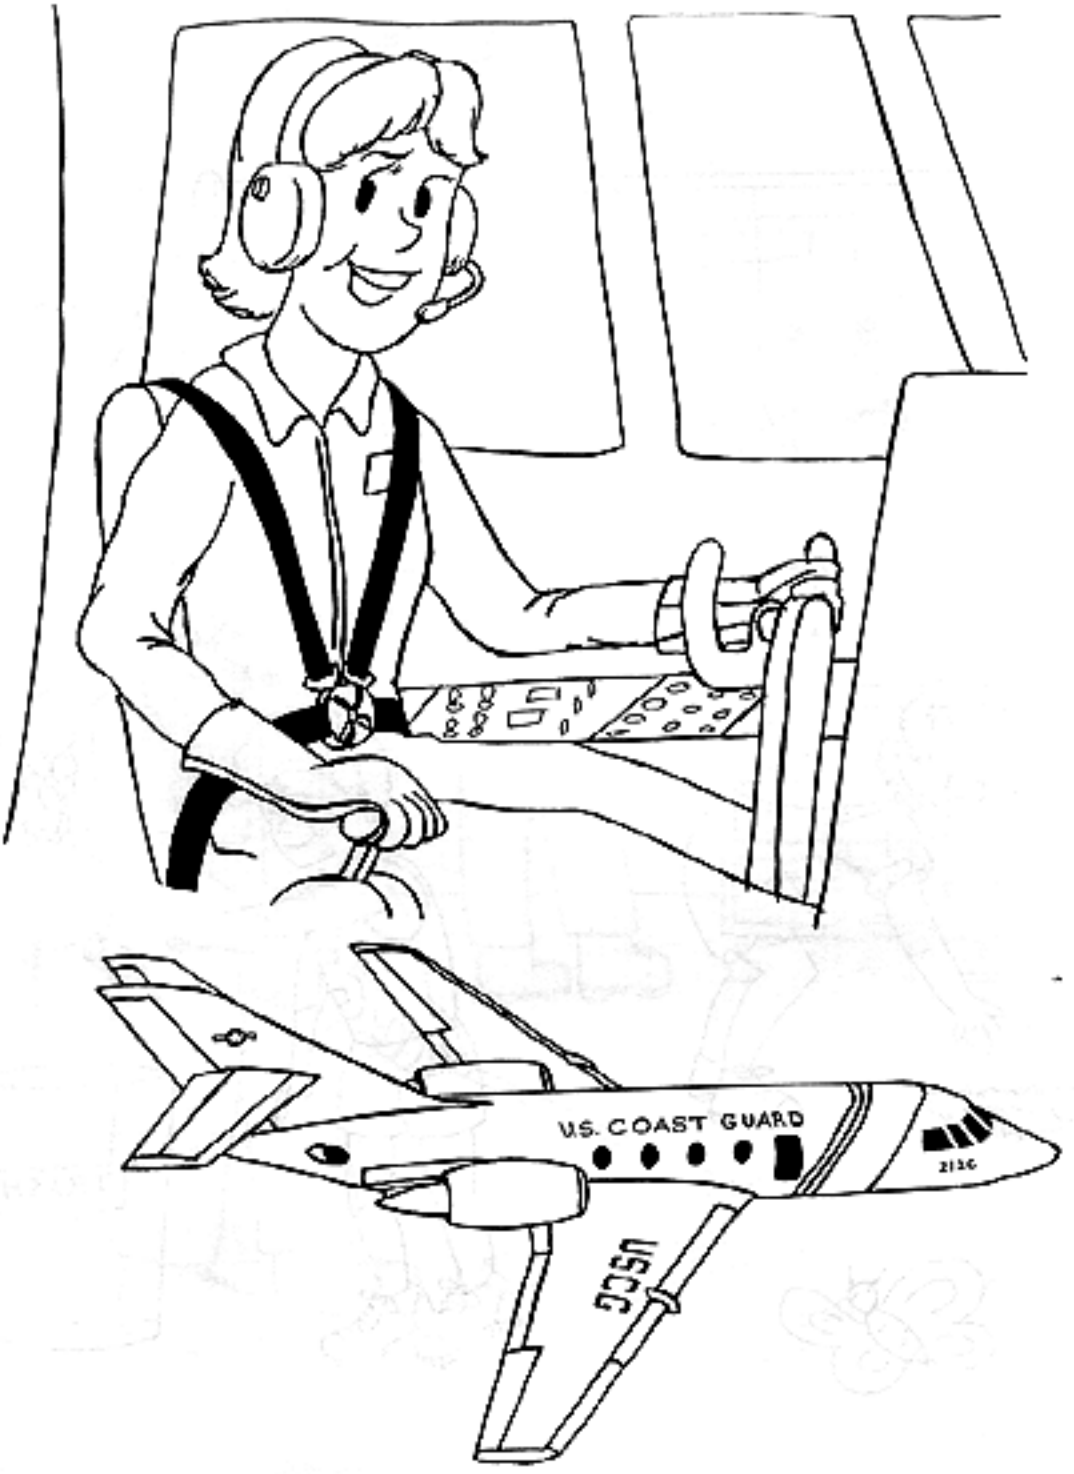
Coast Guard lighthouses and buoys keep ships safe and point the way home.



Traffic signs are like lighthouses, they keep you safe and help you find your way.

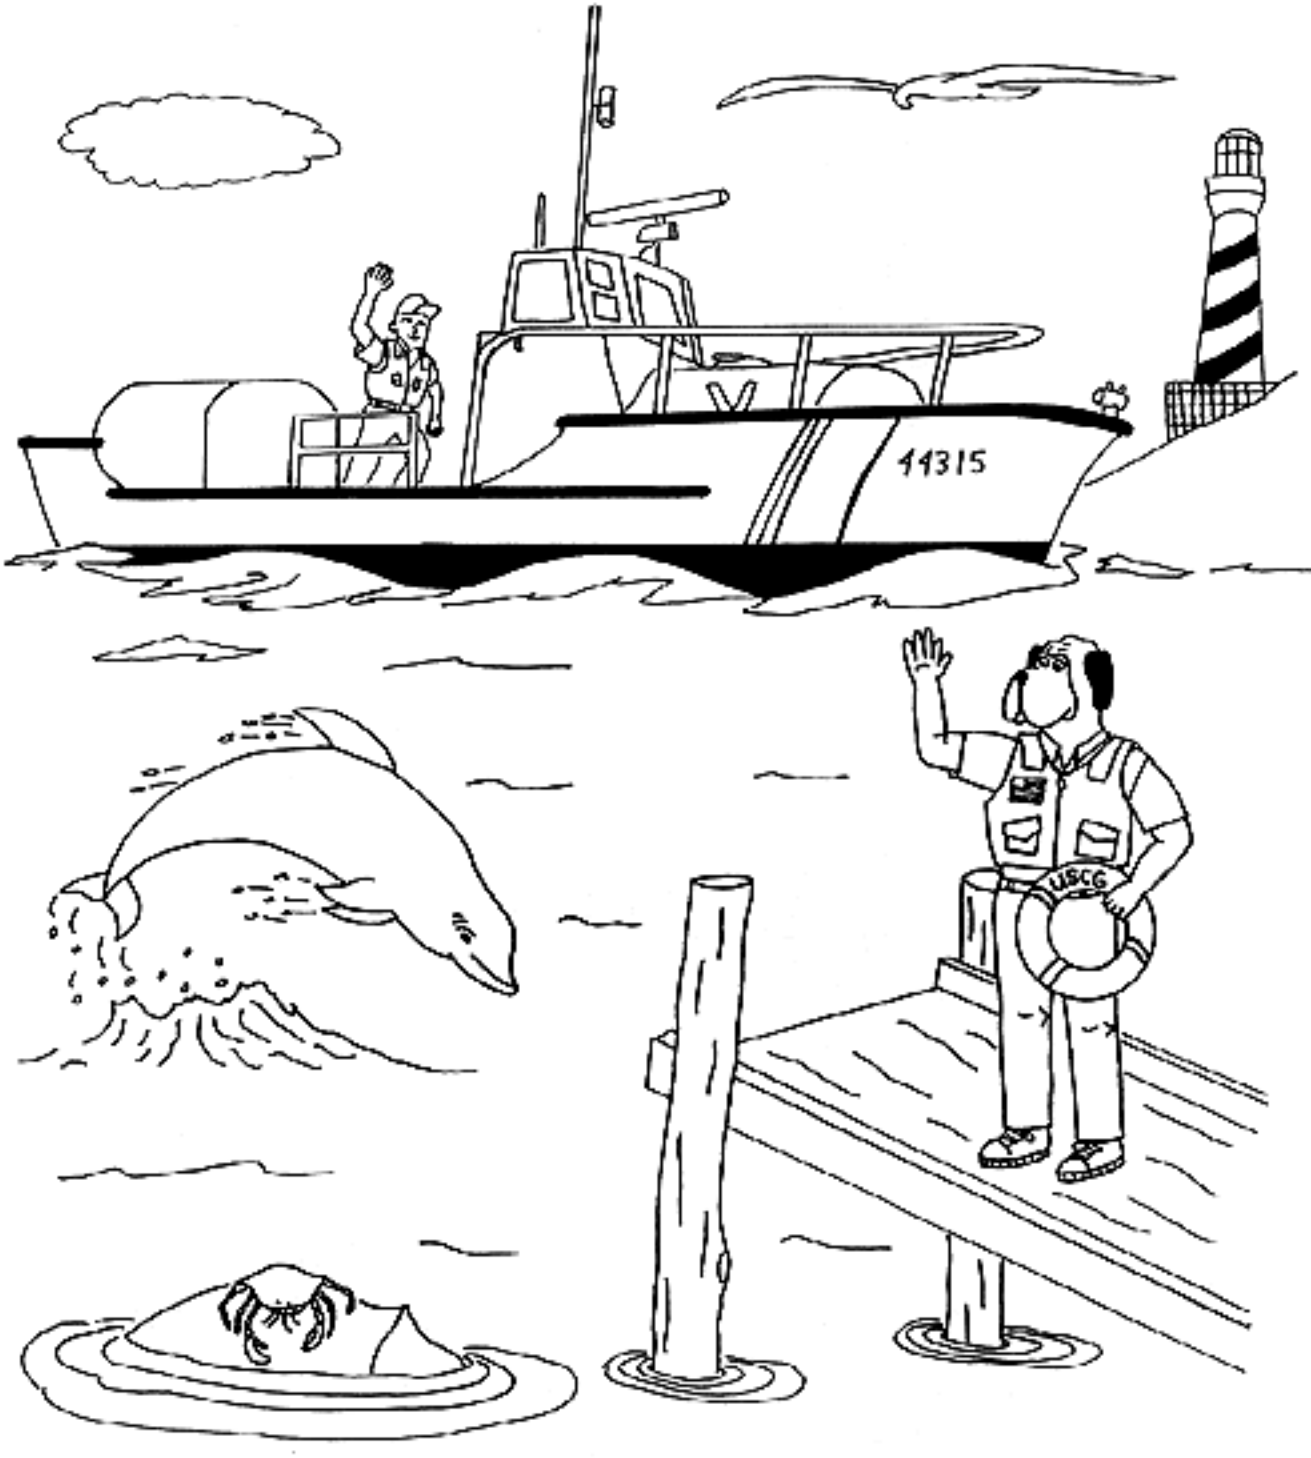
A clean work area is a healthy and safe area.

Keeping your playgrounds and community clean of trash can help you to stay healthy and safe.

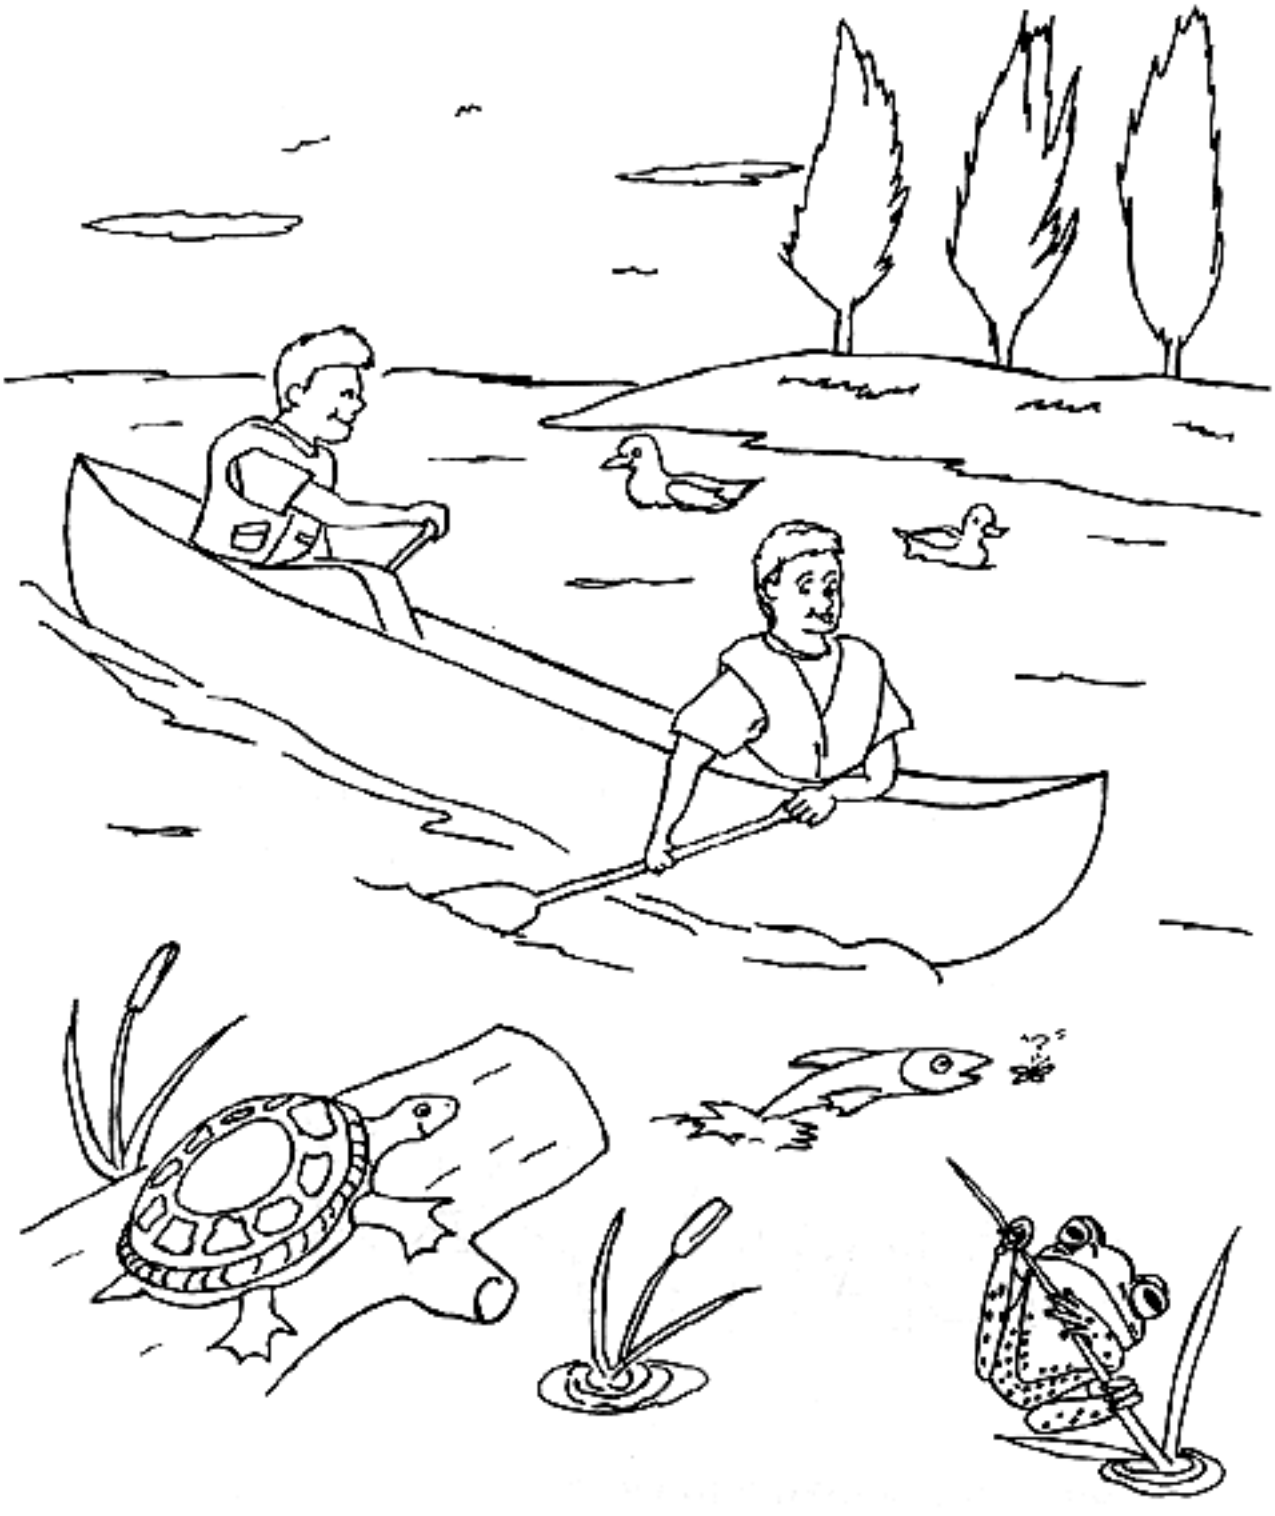


Seat belts save lives. Coast Guard pilots and crew members always wear their seat belts when they fly their planes.

Always buckle up! Wear your seat belts.



Coast Guard men and women always wear life jackets when working on the water.



Wearing a life jacket when you go boating will keep you safe.

Coast Guard men and women are our special friends. They work hard to protect our shores. They do not use drugs.

Do not use drugs. Be smart! Don't start!

The U. S. Coast Guard - Americans at their finest.
