

Psychiatry

Version 1.0

Scope

<u>Privilege(s)</u>	<u>Supported</u>	<u>Not Supported</u>
The scope of privileges in Psychiatry includes the evaluation, diagnosis, treatment and consultation to patients presenting with mental, behavioral, addictive, or emotional disorders. Psychiatrists treat patients of all ages through a variety of pharmacologic and nonpharmacologic therapies and may provide consultation to the courts and perform special military evaluations in accordance with DoD/Service policy. They may admit to the facility and may provide care to patients in the intensive care setting in accordance with MTF policies. They may also assess, stabilize, and determine disposition of patients with emergent conditions in accordance with medical staff policy.	<input checked="" type="radio"/>	<input type="radio"/>
