Current statistics show there are 1073 overdue EERs, accounting for about 3.41% of all active duty E-2 to E-9. Commands should regularly review the EER data for their personnel in CGBI to ensure EERs are completed and approved in a timely manner.

*Total includes Regular and Unscheduled EERs that are overdue. Unscheduled EERs: Advancement, Transfer, Change in AO, or different due date.

*This data may not account for members who are attending "A" or "C" School, advanced education, recruit training, or Coast Guard Academy Scholar training.

*It may show overdue status for members who just completed school/training listed above, on terminal leave, awaiting appellate review of a court-martial, or reservists recently extended or integrated into active duty.

Every unit is responsible for determining when employee reviews are required, due, and completed timely.
