

[-] Optometry			
[-] Version 1.0.1			
[-] Scope			
	<u>Privilege(s)</u>	<u>Supported</u>	<u>Not Supported</u>
	The scope of privileges in optometry includes the evaluation, diagnosis, treatment, and consultation for disorders, diseases, and injuries of the eye, associated structures and the visual system through a variety of tests and measurements. They identify systemic conditions affecting the eyes and vision and refer patients to patients to other providers as indicated. Optometrists provide pre and post operative assessments. Optometrists use topical diagnostic and therapeutic medications, fit and prescribe eyeglasses and contact lenses, and co-manage conditions that affect the ocular health and vision of their patients.	<input checked="" type="radio"/>	<input type="radio"/>
[-] Diagnosis and Management (D&M):			
	<u>Privilege(s)</u>	<u>Supported</u>	<u>Not Supported</u>
	Developmental and perceptual vision screening	<input checked="" type="radio"/>	<input type="radio"/>
	Interpretation of fluorescein angiography	<input checked="" type="radio"/>	<input type="radio"/>
	Traumatic Brain Injury (TBI) vision / neurosensory visual evaluation and management	<input checked="" type="radio"/>	<input type="radio"/>
	Low vision evaluation and prescription of low-vision devices	<input checked="" type="radio"/>	<input type="radio"/>
	Prescribe medications in accordance with Military Treatment Facility (MTF) Pharmacy and Therapeutics (P&T) policy	<input checked="" type="radio"/>	<input type="radio"/>
[-] Procedures:			
	<u>Privilege(s)</u>	<u>Supported</u>	<u>Not Supported</u>
	Specialty contact lens fitting including scleral lenses	<input type="radio"/>	<input checked="" type="radio"/>
	Dilation, probing and irrigation of lacrimal punctum, canaliculi, and sac	<input type="radio"/>	<input checked="" type="radio"/>
	Ophthalmodynamometry	<input checked="" type="radio"/>	<input type="radio"/>
	Multiple punctures of anterior cornea	<input type="radio"/>	<input checked="" type="radio"/>
	Correction of trichiasis (epilation by forceps only)	<input checked="" type="radio"/>	<input type="radio"/>
[-] <u>Procedure Advanced Privileges: (Requires Additional Training):</u>			
	<u>Privilege(s)</u>	<u>Supported</u>	<u>Not Supported</u>
	Chalazion incision and drainage	<input type="radio"/>	<input checked="" type="radio"/>
	Intralesional steroid injection of chalazion	<input type="radio"/>	<input checked="" type="radio"/>
	Retinal electrophysiologic studies	<input type="radio"/>	<input checked="" type="radio"/>
	Periocular skin excision/biopsy	<input type="radio"/>	<input checked="" type="radio"/>
	Visual evoked potentials testing and interpretation	<input type="radio"/>	<input checked="" type="radio"/>
[-] Other (Facility- or provider-specific privileges only)			
	<u>Privilege(s)</u>	<u>Supported</u>	<u>Not Supported</u>
	Removal of superficial corneal/conjunctival foreign bodies with or without rust ring	<input checked="" type="radio"/>	<input type="radio"/>
	PRK and LASIK pre/post-op care of patients	<input checked="" type="radio"/>	<input type="radio"/>
