PAP SMEARS

Standard	Met	Not Met	Not Applicable-Why	Comments:
1. Is there a copy of the last pap smear in the medical record and is it current (within past 3 years) ?				
2. Was a thorough history gathered, including history of abnormal pap smears and follow-up, if applicable?				
3. Was an exam done including breast, external and internal genitals, and STI testing, as indicated?				
4. If patient is being followed for dysplasia, are results in medical record, including interval pap results, biopsy results, and documentation of procedures done?				
5. If entry pap abnormal, is a waiver in the medical record?				
6. Is there documentation of patient education?				
7. Is there a plan for repeat pap smear within clinical guidelines?
