## COAST GUARD CATALOG OF FORMS

### CHAPTER I - GENERAL INFORMATION

This catalog contains all descriptive data necessary to identify and procure any of the listed forms. Information is presented in columnar format; headings are interpreted as follows.

1. **Office of Primary Responsibility** (OPR)
2. **Title**, the form title is printed beneath and to the right of the form number. OPR is the Headquarters program manager for the form.
3. **Stock Number**. Use **numeric "0"** vs. **letter "O"**.  
example: (7530-00-F01-1234)
4. **Date of Current Form** This is a four-character field which specifies the month and year of the form's latest revision.
5. **Unit of Description** All forms can be considered as sheets of paper; but modern techniques and definitions make it necessary to broaden the definition to include items beyond the common definition. Accordingly, the following are sample descriptions utilized in this catalog:
  - a. **Sheet** One single sheet of regular paper, printed on one on both sides, varying in size.
  - b. **Pad of 25 3-Part Sets** Twenty-five sets of three part forms each, padded together like a writing tablet by gluing one edge. May or may not be carbon interleaved.
  - c. **Pad of 100 Sheets** A hundred sheets of the same form, not separated into sets, but padded together by gluing one edge. May or may not be carbon interleaved.
  - d. **8-Part Carbon Interleaved Set** Eight identical or similar forms joined together at one edge by a glued tab so that they may be ripped apart for distribution. Sometimes numbered or specifically designed so that each copy has a special designation at the bottom of the form.

- e. **Card** One sheet form of heavy card stock, such as an index card, a post card or poster.
  - f. **Book** A series of sheets bound together in a heavy durable cover, such as a log. A form number is assigned for stocking purposes.
  - g. **Poster** A printed display of notices characterized by heavy cardboard stock, and large in size. A form number is assigned for stocking and control purposes.
  - h. **Label** Printed or pre-addressed blank mailing stickers, gummed on the back. Other varieties are used for identification of items or services.
  - i. **Tag** Identity device in the form of a small heavy stock card, usually with a pre-punched hole for attachment to an object.
  - j. **Decal** Pressure sensitive backing or mac-tac easy peel-off backing; for applying on surfaces.
  - k. **Folder** File folder or similar container.
  - l. **Continuous Feed Forms (CFF)** Automated Data Processing forms. CFF forms can be single sheets or set forms.
  - m. **Self-mailers** Automated Data Processing forms. The self-mailer is pre-printed with constant information; the computer printer adds variable information at processing time. Self-mailers can be single sheets, set forms, or envelopes.
6. **Unit of Issue** Indicates the smallest quantity of forms which are issued in a single log. Unit of issues used in this catalog are:

<b>EA</b>	Each	<b>MX</b>	Thousand (1000)
<b>SE</b>	Set	<b>HD</b>	Hundred (100)
