

Department of Homeland Security
United States Coast Guard

Machinery Technician Third Class Timothy F. Johnson

You have been selected as Coast Guard ANT New York Sailor of the Quarter for the period of 01 January 2007 thru 31 March 2007.

During this period you exemplified the qualities we treasure most here at ANT New York: initiative, integrity, and assertiveness. During this period you went above and beyond what is expected of a person in your pay grade. To start the quarter, you re-wired and installed the engine on the 21494, with little or no assistance. In addition to the engine install, you aggressively worked on a water leak on the 23' TANB. Your willingness to stay after hours to complete work projects or to assist a shipmate on their personal needs, whether it is for qualifications or vehicles, shows a high level of motivation and pride. Your hard work and dedication did not let up as you immediately were sought for projects that required precision and expertise, completing them with no supervision, while setting an example for others. You successfully completed your qualification as BUSL and TANB crewman, which is an accomplishment of itself due to the complexity of both boats. Your constant positive attitude and high standard of work ethic has rubbed off on your shipmates and has been vital in sustaining a high degree of morale. You are a superb role model for all members of ANT New York.

Your professionalism, enthusiasm and expertise are highly commendable and reflect the Coast Guard's core values of Honor, Respect, and Devotion to Duty. On behalf of the crew at ANT New York, I extend to you my sincere appreciation for a job very well done. Bravo Zulu and Semper Paratus.
