

# Department of Homeland Security United States Coast Guard

## Fireman Joseph M. Wilmot

You have been selected as Coast Guard ANT New York Sailor of the Quarter for the period of 01 July 2006 thru 30 September 2006.

During this period you exemplified initiative, integrity, and assertiveness while assigned to ANT New York's Engineering Department. You went above and beyond what is expected of a member in your pay grade. To start the quarter, you played a major part in ANT New York receiving the Sumner I. Kimball award for excellence, during the bi-annual Standardization Team visit. You demonstrated your knowledge by excelling in both underway drills and correcting discrepancies from the material inspection, which was an intricate part of ANT New York earning the unit 48 out of a possible 50 points on the award scoring system. You successfully completed your qualification as BUSL and TANB engineer, which is an accomplishment of itself due to the complexity of both boats. Your hard work and dedication did not let up as you immediately were sought out for projects that required precision and expertise, completing them with little or no supervision, while setting an example for others. Your constant positive attitude and high standard of work ethic has rubbed off on your shipmates and has been vital in sustaining a high degree of morale. You are a superb role model for all members of ANT New York.

Your professionalism, enthusiasm and expertise are highly commendable and reflect the Coast Guard's core values of Honor, Respect, and Devotion to Duty. On behalf of the crew at ANT New York, I extend to you my sincere appreciation for a job very well done. Bravo Zulu.
