

Are you a parent?
Do you have
questions regarding
Child Care?

Locating and securing quality child care is critically important to working families today. Without it, parents cannot work. It is extremely important to the Coast Guard, as well. If working parents do not feel comfortable with their child care arrangements, they will soon become distracted and less productive in the workplace.

Safe, reliable, licensed and certified quality Child Care is of utmost importance, and a constant challenge, to parents. The Coast Guard's FCC program can be a big help. Please contact the [Family Child Care Coordinator](#) at **718-354-4404 or Maura.Redy@uscg.mil to help you with your Child Care concerns.**
