

Drill Conductor

Links to applicable regulations

[46 CFR 28.270](#) – Drills requirement

[46 CFR 28.275](#) – Instructor and course requirements

Checklist for this item

	The required drills must be conducted under the supervision of a qualified drill conductor who has been appropriately trained by a qualified drill instructor of a training organization.
	Ensure you have the drill conductor available to provide proof of the required training. If the person is not available provide that persons contact information.
	<ul style="list-style-type: none">The drill conductor does not have to be a person in the crew nor the master of the vessel. A drill conductor not part of the crew can attend the vessel and supervise the drills then depart and return again to oversee drills on a monthly basis.
