Q: Can I use the Express Scripts website to order prescription refills through home delivery?

A: Yes you can. Simply follow the steps below:

1. Visit www.express-scripts.com/TRICARE.
2. Enter your username and password.
3. Follow the prompts to refill your prescription.

The best way to ensure you never run out of your medication is to sign up for Automatic Refill when placing your first order online, or at any time after you have started home delivery.

Q: I have other health insurance (OHI). Can I use TRICARE Pharmacy Home Delivery as primary payer for my prescriptions?

A: If your OHI provides a prescription-drug benefit, you must use it first to cover the cost of your prescriptions. You may only use home delivery if your OHI does not cover the medication needed or your OHI prescription coverage has been exhausted.

Q: How long will it take to receive my prescriptions from TRICARE Pharmacy Home Delivery?

A: We recommend you have a 30-day supply on hand when you place your first home delivery order. You can expect refills to arrive within two weeks.

Q: Can refrigerated medications be shipped through home delivery?

A: Yes. Prescriptions requiring refrigeration are shipped in cold packs according to the manufacturers' specifications. Please note that refrigerated medications cannot be shipped to APO/FPO addresses.

Q: I have my prescription filled through home delivery. How soon can I request refills?

A: You may refill your prescription after you have used 66% of your medication. Check your prescription-bottle label for the next refill date and reorder anytime after the date – ideally two weeks before you need your refill.

If you send in your request before the refill date, Express Scripts will hold it until the first available fill date and then automatically send it to you.

Q: How can I get started with home delivery right away?

A: If you are using retail, you can get started online, by phone or by mail. See the back panel for more information.
