A \$150 Value yours FREE!

Have our trained professionals demonstrate Damage Control and Vessel Stability to you and your crew and get a FREE Damage Control Kit.

Damage/Flooding Control: Our trainer simulates 7 common flooding scenarios encountered on boats. Learn how to use proper techniques with simple tools to stop the leak. This is HANDS ON so be prepared to get wet!

Vessel Stability: Have you thought about your vessel's stability lately? Our intact stability model demonstrates the effects of weight and free surface effect on a vessel. Learn more about the importance of keeping weight low in the boat, compartmentation, and watertight integrity.
