Notes

General: The entry in the Hazard Class column denotes the primary hazard classification unless indicated otherwise in the Notes column.

General: PM represents "poisonous material" and PIH represents "material poisonous by inhalation". Both terms are defined in 49 CFR 171.8.

Note 1: This cargo is a CDC only when transported under RSPA Exemption DOT-E 8723 or when it requires a permit under 49 CFR 176.415.

Note 2: This cargo is a CDC only when it requires a permit under 49 CFR 176.415.

Note 3: This cargo is a CDC only when transported as a "highway route controlled quantity" or "fissile material controlled shipment". Shipping papers will indicate either of these designations.
