REFERENCES: (a) Radio Frequency Plan, COMDTINST M2400.1 (series)

1. MSU Port Arthur Communications Plan.
  - a. Refer to Annex K for amplified guidance.
2. The Eighth District Disaster Control Network.
  - a. This is a non-directed net using frequencies contained in reference (a). This network is designed to enhance coordination between Eighth District units during disaster response and recovery operations. Call signs used on this net are standard international voice call signs.
  - b. The frequencies are:
    - (1) Primary: 5321.4 MHz (window 5320) – daytime only
    - (2) Secondary: 2700.4 MHz (window 2699)
    - (3) Tertiary: 2684.4 MHz ( window 2683)
2. Communicating with Sector IC and District IMT.
  - a. The Sector Commander will activate a Sector IMT. The Sector Situation Unit will be the primary point-of-contact for passing information to the Sector Commander. Phone numbers for the Sector IC will be published via message.
  - b. Once the District Commander has activated the IMT, the D8 Command Center should be called for SAR and Initial POLREP cases **ONLY**. All other requests and or communications should be directed to the IMT. Communicating with the IMT will principally be done via e-mails or phone calls.
  - c. Phone numbers in effect for the District IMT:
