

Sector Detroit Mission Statement

Mission: Sector Detroit brings the full spectrum of Coast Guard missions under the operational command of a single field commander. Formed by the merger of the former Group Detroit and Marine Safety Offices Detroit and Toledo, the Sector provides unified service to maritime stakeholders, typifying the Commandant's vision of "One Port – One Voice." Based on the core processes of prevention, response and logistics, the Sector organization represents an exceptionally agile command and control system, supported directly by an in-house logistics capability. Within this structure, our workforce actively engages in prevention and planning duties, stands ready to respond to emergencies, and works closely with partner agencies and organizations to bring our expertise and equipment to bear on the many dynamic challenges that exist in Great Lakes. Sector Detroit will efficiently manage these challenges as the Coast Guard forges a path into the 21st century.

Vision: "Safe, secure, clean and productive waters." Through stewardship, leadership and partnership, Sector Detroit will aggressively exercise its authorities to make the waters within its jurisdiction safe, clean and secure, while also maximizing their value to the local and national economies.

Guiding principles: In addition to the Coast Guard core values of Honor, Respect and Devotion to Duty, the following Key Business Drivers will guide and inform our actions and decisions:

- A. Readiness – As the lead federal agency for maritime safety, maritime mobility and maritime homeland security, we will ensure that our departments and units have sound policies and procedures to guide them, are adequately staffed with trained people, and are equipped with the gear and assets needed to accomplish all assigned tasks.
- B. People – We will continue to build and maintain a highly skilled, highly motivated workforce that reflects the Coast Guard's core values of Honor, Respect and Devotion to Duty. We will provide our personnel with the best possible quality of life, the best possible training, and with the best possible career opportunities.
- C. Stewardship – We will strive to be the best led and best managed Sector in the Coast Guard, providing exception service to the public and exception support for our own personnel.
