

Visibility from the Pilothouse of the tug MICHIGAN  
From composite of digital photographs taken on August 30, 2000  
(For illustrative purposes only, some distortion will be evident.)

(A) View from pilothouse seat looking forward. Steering controls are located at the center of the console (below). Throttle controls are located to the right (below). VHF Radios are located at the center (above). The lights in the center window are located near the bow of the barge GREAT LAKES

(B) View from pilothouse seat looking to port. The radar just off camera to the lower right was added since December 11, 1998.

(C) View from pilothouse seat looking to starboard. Near the lower center is the radar used on December 11, 1998. LT Jon Burk is standing at the pilothouse chart table, facing aft.
