Attending Inspectors: Mr. [REDACTED], LCDR [REDACTED], CWO2 [REDACTED]

Used applicable CG-840 books and other unit guidance and checklists as a guide for conducting the inspection.

Attended rig dynamically positioned at Keathley Canyon, Block 102 in the Gulf of Mexico to conduct a COC-Renew examination.

Reviewed all applicable licenses, citizenship waivers, documents, manuals, instructions and annual service reports, no discrepancies noted. Examined all lifesaving gear, all sat. Tested fire pumps to include operation of two hoses at widely separated locations, operation satisfactory. Toured accommodations to include galley and hospital space, all appeared sanitary, safely habitable, and within occupancy standards. Observed service generators in operation and reviewed records related to PMS and testing of shutdowns and RP relays. Started emergency generator and observed satisfactory gauge readings on the panel. Remote ventilation shutdowns were tested without incident. Tested OWS alarms and shutdown and bilge alarms, all sat. Crane servicing reports were reviewed and the cranes themselves inspected for damage and compliance with applicable regulations. Fire and abandon ship drills were completed satisfactorily. Checked fire boundary doors and ensured proper operation. Inspected hazardous locations for ventilation and electrical installations. Inspection complete. No deficiencies issued, cleared, or remain outstanding. Issued COC to expire 27 Jul 2011.
