

## CHAPTER X - Dive

### 1. Summary

#### A. Pre-Deployment Preparations

1. During the Seattle inport, the SCUBA tanks were given annual visual inspections. Additional dive gear was purchased to replace lost, damaged or expended items such as fins, dry suit gloves and rings, and mask/snorkel sets. Further renovation of the locker set-up and completion of the compressor move (to hangar) was delayed due to personnel transfers and awaiting the delivery of parts.
2. The dive team lost two members but gained BM2 Steven Duque after successful completion of dive school in March, and EM1 [REDACTED], a transfer from POLAR STAR and a qualified dive supervisor. The dive officer, LT Jessica Hill was extended for a year. Also incoming this summer is ENS [REDACTED] who attended basic SCUBA as a 1/c cadet.
3. Prior to BM2 [REDACTED]'s departure, the team participated in his underwater re-enlistment and fun dive at the Edmonds SCUBA "park." All divers are current on their quals.

#### B. Seattle to Dutch Harbor/CART

1. No dive related activities were conducted during this time period.

#### C. AWS 1-06

1. No dive related activities were conducted during this time period.

#### D. Dutch Harbor/Change of Command/Transit/Sci Onload

1. No dive related activities were conducted during this time period.

#### E. TSTA

1. The compressor cascade tanks were given hydrostatic tests and are now current through May 2011.

#### F. Seattle to Barrow

1. ENS [REDACTED] arrived onboard during the Barrow personnel transfer. She is/is not current on her dive activity. We will conduct recertification dives in Dutch Harbor. With the proposed split between assigning the Marine Science Officer as the Dive Officer, it is recommended that ENS [REDACTED] attend the basic dive officer course upon HEALY's return to Seattle this fall and take over this collateral upon LT Hill's departure.

#### G. AWS 2-06

1. Dive team members held informational/recruiting meeting to ....
