Dynamic Positioning System Training Course Evaluation

Course Title: DPS Induction

Name: Jessica Noel (optional) Date: 16 Feb 06

1. How would you rate the quality of the course manual, and training aids such as transparencies / drawings, and simulation equipment.
Very good. Manual + Classroom trng were very thorough. Simulation equipment was a great trng aid.
2. How would you rate the quality of instruction in relation to other instructors, such as language level, preparation, organization, and presentation of material.
Very good. [redacted] knows the system very well & was able to make it understandable. Well organized + prepared (presentations, simulations).
3. Are the training facilities adequate, comfortable, and do they provide a good learning environment?
Yes!!
4. Will this course help you perform your job more effectively? (Explain)
Yes. We have a DPS & now know how to use it effectively for operations during science stations.
5. What changes, if any, do you think would enhance the course?
Electronic manual presentation (laptop/projector) on a SmartBoard would help keep pages in order while still allowing instructor to write on slides (i.e. on the SmartBoard)
6. Would you recommend this course to others? Yes
7. Additional comments:
One of the more useful trngs I've rec'd.

3. The Coast Guard has determined that this course provides the required 24 hours of training to meet the requirements of 29 CFR 1910.120, the Hazardous Waste Operations and Emergency Response (HAZWOPER) standard. In addition to meeting these training hour requirements, you are certified to have completed the emergency response competencies outlined in paragraph (q) for First Responder Awareness (FRA), First Responder Operations (FRO), and On Scene Incident Commander (IC). Although the course meets the training hours and post-emergency competencies required under paragraph (e) for the Occasional/Low Hazard Site Worker (OSW), you will need an additional 8 hours of supervised on-site field experience before your unit may certify completion at this training level. Annual refresher training will be required to maintain your FRA, FRO, and IC certification and 8 hours of annual refresher training is required to maintain the OSW certification.

4. Forward a copy of this letter to your unit PERSRU to note completion of training in CGHRMS using the following PMIS codes:

MAY PROMOTE THE PERSONNEL LISTED BELOW, EFFECTIVE ON THE DATES
INDICATED. PAY AND ALLOWANCES OF THE GRADE TO WHICH PROMOTED ARE
AUTHORIZED FROM DATE OF RANK.

2. PRIOR TO PROMOTION, COMMANDING OFFICERS SHALL ENSURE COMPLIANCE
WITH PARA 5.A.13 OF REF (A) FOR ADPL PROMOTIONS TO O-2 THROUGH O-6,
PARA 5.B.6 OF REF (A) FOR ADPL PROMOTIONS TO CHIEF WARRANT OFFICER
AND SECTION 7.A.10 OF REF (B) FOR IDPL PROMOTIONS. COMMANDING

MARINE SAFETY TRAINING GUIDE

POLLUTION INVESTIGATOR

QUALIFICATION CODE (ED)

This booklet is one section of your personal OJT manual. It represents your on-the-job guide to qualification in this area of marine safety work. Your responsibility for documenting completed unit training items is self explanatory. For on-the-job training, a qualified person in this area, called a Verifying Officer, is to observe you perform each item, and sign in the appropriate space provided in your booklet. It may be necessary to perform a task several times. The verifying officer will not give credit for any task that is not performed satisfactorily.

When you have satisfactorily completed all of the items required by your command for this section, your command will issue a letter of designation. This letter states you have satisfactorily completed all of the unit training requirements for this area. Your personnel department (ADMIN) will enter the appropriate code to be reflected in your Personal Data Extract (PDE).

The following references will aid you in completing the majority of tasking in this manual, references pertaining to each PQS item are listed at the end of the booklet:
