

IDHS OPERATIONAL INTEGRATION FORM

INSTRUCTIONS

An Independent Duty Health Services Technician (IDHS) works outside a clinic setting supervised by a Designated Medical Officer Advisor (DMOA). The IDHS practices in consultation with the DMOA or Flight Surgeon when a situation is beyond the scope of technician health care. Dispensation approval is required as follows:

1. The **IDHS** enters the appropriate code in the block marked **request**, signs and dates the form and sends it to the DMOA.
2. The **DMOA** enters the appropriate code in the block marked **approve**, signs and dates the form and sends it to the IDHS's Command.
3. The **Command** reviews the dispensation request, signs and dates the form and keeps original on file.
4. This request must be renewed after a change in DMOA or as requested by the Command or DMOA.

Codes: **1 – Fully competent within defined scope of practice.** **3 – Not approved due to lack of facility support.**
 2 – Verbal or direct supervision required. **4 – Not requested or approved due to lack of expertise.**
