ALLERGIC RHINITIS

Standard	Met	Not Met	Not Applicable - Why?	Comments:
1. Is there a thorough patient history each visit? (avoidance measures)				
2. Does the history reflect determination of treatment effectiveness?				
3. Is there an appropriate HEENT, neck, and Lung physical exam each visit?				
4. Are CG medication standards for aviators met?				
5. Is the treatment plan consistent with the diagnosis?				
6. Is there documentation patient education has been provided?
