EEOC Releases FY10 Report on the Federal Work Force

The Equal Employment Opportunity Commission (EEOC) released its Annual Report on the Federal Work Force Part II: Work Force Statistics in late March. Providing a Government-wide accounting of equal employment opportunity (EEO), the report covers FY2010, the period from 1 October 2009 to 30 September 2010. The report offers workforce profiles and trends for sixty-four Federal agencies including the Department of Homeland Security, a status report of agencies' progress toward achieving a model EEO program, as well as summaries of EEO program activities, and best practices.

The report highlighted a small gain (554) in employees with targeted disabilities (deafness, blindness, missing extremities, partial or complete paralysis, convulsive disorders, intellectual disabilities, mental illness, and distortion of the limb or spine). Thus, as of FY10, individuals possessing targeted disabilities made up 0.88 percent of the federal workforce - short of EEOC's goal of 2 percent.

The report also noted that of the 2.8 million Federal employees, 56 percent are men and 44 percent are women. Further demographic breakdowns revealed the Federal workforce as 65.4 percent white, 17.9 percent African American, 7.9 percent Hispanic or Latino, 5.9 percent Asian, 1.6 percent American Indian or Alaska Native, 0.8 percent persons of two or more races, and 0.04 percent Native Hawaiian or Other Pacific Islander. CRD Plans for the Future

Regional and Zone Managers met in New Orleans, LA to plan for the future (Plan of Action 2016), discuss important civil rights issues, and refine processes. This forum included informative sessions, one led by Ms. Patricia St. Clair, an MD-715 trainer with the Equal Employment Opportunity Commission (EEOC). Ms. St. Clair provided training on MD-715 barrier analysis, the triggers and red flags found in workplace policies, procedures, and practices, and how to identify root causes.

CRD staff also visited Sector New Orleans and viewed the Vessel Traffic Control (VTC) control room, from which personnel monitor and control all vessel traffic from Baton Rouge to the Mississippi Delta. After an interesting presentation, VTC personnel took the time to answer questions and provide in-depth demonstrations.

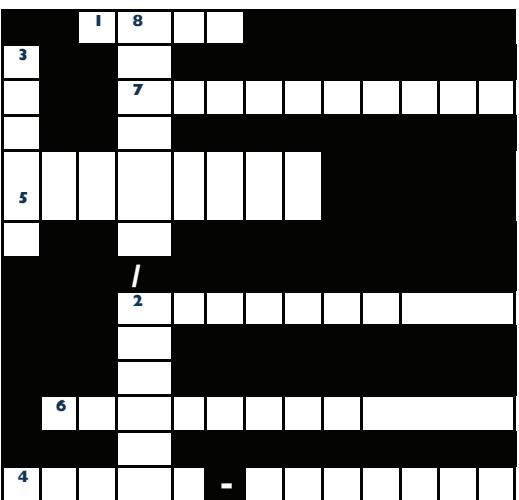

Later, MSTCM Damara Oos, the highest ranking Marine Science Technician in the area, escorted CRD on an informational tour of the departments that make up Sector New Orleans, while highlighting interesting artifacts recovered from worksites. Submitted by YN2 Christine Carolus

Coast Guard encourages all commands to initiate activities and events which promote equity, fairness, and equal opportunity within the workforce. Also known as Special Emphasis Programs (SEPs), these employment-related activities focus attention on groups whose participation rates fall below those found in the national civilian labor force. These programs are authorized by Executive Orders and Civil Rights regulations, and reinforced by Presidential Proclamations which commemorate the special observances and encourage Americans to participate in related educational activities and celebrations (see COMDTINST M5350.4C). Throughout the year, CG members organize events and activities in support of SEPs.
