Dear Mr. Garneau,

I live in the neighborhood of the Ambassador bridge and will be affected by your decision regarding the permit for the DIBC. I think that instead of using its considerable resources to pay off or undermine our elected representatives, to maneuver to block the construction of a publicly owned bridge, to pay people who do not live in this neighborhood to testify for the DIBC at every public hearing and to generally pervert the democratic process, the DIBC should repair the bridge that it is so badly neglecting. Please do not allow this bad actor to get its way and degrade the quality of life in our neighborhood. Please deny the permit.

Sincerely,

Mark Dancey

Hubbard Farms resident.
