# CG-7 Organizational Chart

# CG-7 Responsibility Overview

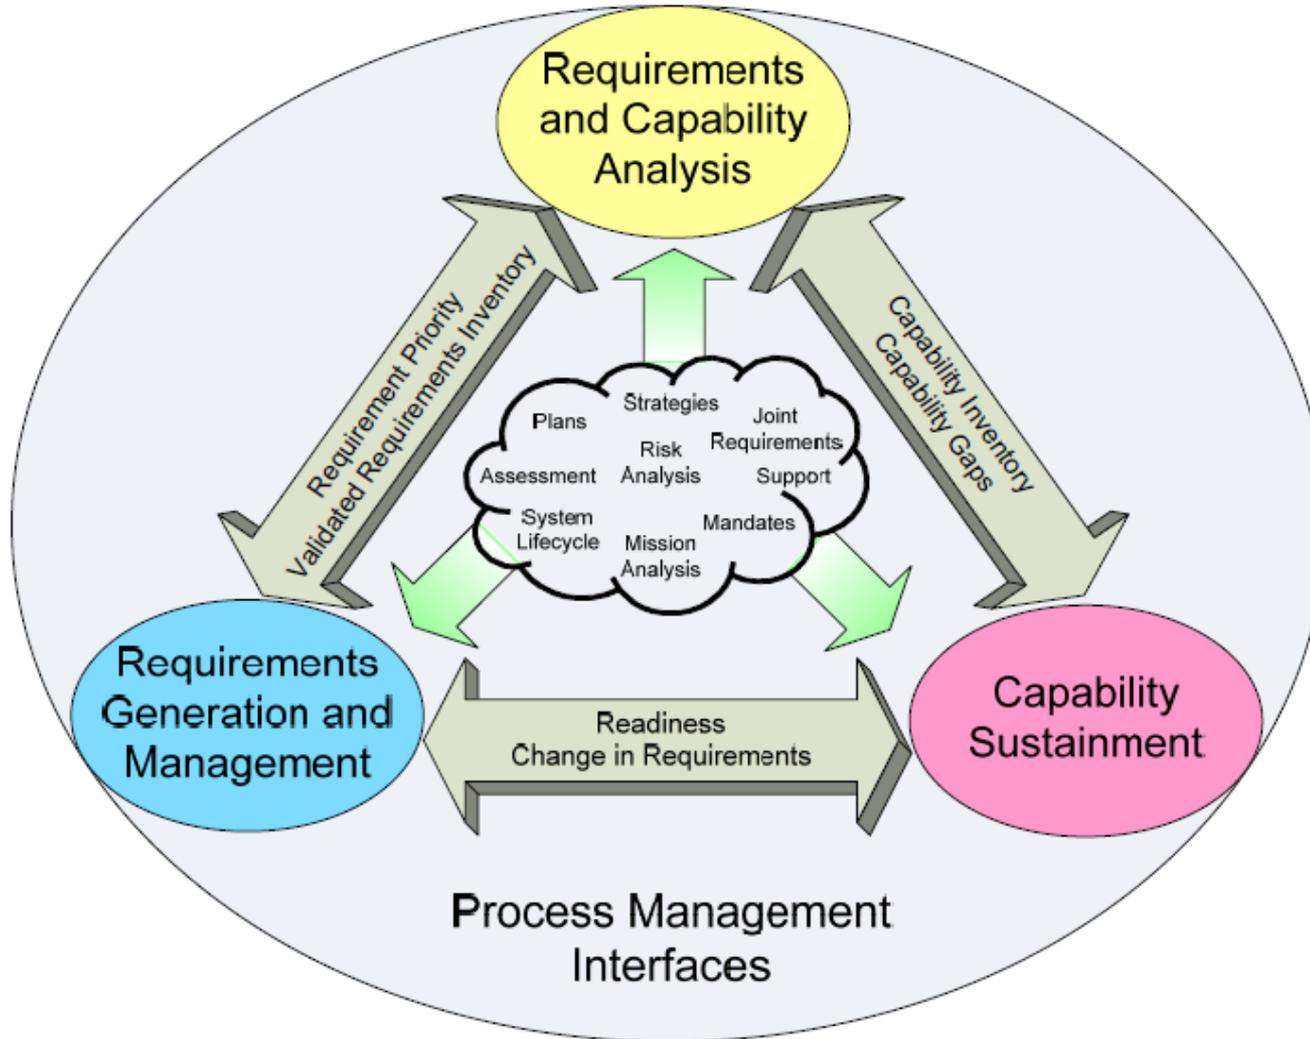

- **The Office of the Assistant Commandant for Capability is the U.S. Coast Guard's Operational Requirements Office.**
  - *Exist to strategically manage resources for the service to accomplish its defined and future missions.*
  - *Analyze the future resource needs of the service.*
- As the Policy Directorate (5R) crafts authority and mission guidance; and Service Support (DCMS) creates sustainment, CG-7 validates and manages the “stuff” to make it happen.
- **If it flies, floats, shoots, inspects, detects – we ensure alignment between policy, acquisition, and logistics.**

# Capability Management and Analysis Framework

# Office Responsibilities (1 of 3)

Office	Responsibilities
<b>CG-7D-1 Office of Specialty Force Manager</b>	<ul style="list-style-type: none"><li>• Provides oversight on issues that impact the operational specialties</li><li>• Provides input into force management initiatives</li><li>• Manages the structure of their workforce</li><li>• Prepares personnel to meet current and future missions</li><li>• Manages new workforce capability requirements</li></ul>
