Public Access Facilities

24-04

FINAL

Issue (24-04): The purpose of this guidance in the enclosures is to provide instruction for COTPs and facility owner or operators regarding application, review, and granting Public Access Facility (PAF) exemptions per 33 CFR 105.110(d). Designation of a PAF does not constitute total exemption of 33 CFR Part 105. To ensure national consistency, COTPs shall incorporate this guidance when considering exemption requests. **This guidance will eventually be published as enclosures to NVIC 9-02, Change-2.**
