Semiannual Regulatory Agenda

DEPARTMENT OF HOMELAND SECURITY (DHS)

DEPARTMENT OF HOMELAND SECURITY

Office of the Secretary

6 CFR Chs. I and II

Unified Agenda of Federal Regulatory and Deregulatory Actions

AGENCY: Office of the Secretary, DHS.

ACTION: Semiannual regulatory agenda.

SUMMARY: This notice is given pursuant to the requirements of the Regulatory Flexibility Act (Pub. L. 96-354, September 19, 1980) and Executive Order (E.O.) 12866 (“Regulatory Planning and Review,” September 30, 1993), which require the publication by the Department of a semiannual agenda of regulations. Under the Homeland

Security Act of 2002, a number of agency elements and their regulatory authority have been or will be transferred to the new Department of Homeland Security. Accordingly, this inaugural agenda for the Department encompasses the actions taken by the Office of the Secretary as well as actions taken by the transferred agency elements.

FOR FURTHER INFORMATION CONTACT: For additional information about a specific entry in the agenda or plan, contact the “Agency Contact” identified in the agenda item relating to that regulation.

SUPPLEMENTARY INFORMATION: The semiannual agenda of the Department of Homeland Security conforms to the Unified Agenda format developed by the Regulatory Information Service Center (RISC).

The Homeland Security Act of 2002 transferred the United States Customs Service from the Treasury Department to the New Department of Homeland Security (DHS). That Act, however, provides that the Secretary of the Treasury retains the regulatory authority for what the Act defines as customs revenue functions, but provides the Secretary of the Treasury plenary power to delegate such authority to the Secretary of Homeland Security. For this reason, Customs regulations continue to be enumerated in Treasury’s portion of this semiannual regulatory agenda and are incorporated here by reference.

Dated: March 21, 2003.

Lucy G. Clark,
Chief Legal Counselor.

Office of the Secretary—Proposed Rule Stage

Sequence Number	Title	Regulation Identification Number
955	National Environmental Policy Act Procedures	1601-AA13
956	Procedures for Handling Critical Infrastructure Information	1601-AA14

Office of the Secretary—Final Rule Stage

Sequence Number	Title	Regulation Identification Number
957	Freedom of Information Act and Privacy Act Procedures	1601-AA00
958	Production or Disclosure of Official Information in Connection With Legal Proceedings	1601-AA01
959	Procedures Relating to Awards Under the Equal Access to Justice Act	1601-AA07
960	Collection of Nontax Debts Owed to the Department of Homeland Security	1601-AA08
961	Right to Financial Privacy	1601-AA09
962	Program Fraud Civil Remedies	1601-AA11

Office of the Secretary—Long-Term Actions

Sequence Number	Title	Regulation Identification Number
963	Classified National Security Information	1601-AA02
964	Enforcement of Nondiscrimination on the Basis of Disability in Department of Homeland Security Programs or Activities	1601-AA03
965	Nondiscrimination on the Basis of Sex in Education Programs or Activities Receiving Federal Financial Assistance	1601-AA04
966	Regulations Regarding Nondiscrimination on the Basis of Race, Color, or National Origin in Programs or Activities Receiving Federal Financial Assistance	1601-AA05
967	Authority of the Secretary of the Department of Homeland Security; Delegations of Authority; Immigration Laws	1601-AA06
968	Governmentwide Debarment and Suspension (Nonprocurement) and Governmentwide Requirements for Drug-Free Workplace	1601-AA10
969	Regulations Imposing Restrictions Upon Lobbying	1601-AA12

DHS

Bureau of Citizenship and Immigration Services—Final Rule Stage (Continued)

Sequence Number	Title	Regulation Identification Number
1061	Authorizing Suspension of Employment Authorization Requirements on the Basis of Severe Economic Hardship for F-1 Students and Emergent Circumstances	1615-AA99
1062	Filing of Proposals for Designation as a Regional Center Approved To Participate in the Immigrant Investor Pilot Program	1615-AB00

Bureau of Citizenship and Immigration Services—Long-Term Actions

Sequence Number	Title	Regulation Identification Number
1063	Regulations Relating to Temporary Protected Status	1615-AA04
1064	Employment Verification by Employers That Are Members of a Multi-Employer Association	1615-AA07
1065	Limiting Liability for Certain Technical and Procedural Violations of Paperwork Requirements	1615-AA08
1066	Interim Designation of Acceptable Receipts for Employment Eligibility Verification	1615-AA20
1067	Inadmissibility and Deportability on Public Charge Grounds	1615-AA22
1068	Extending the Period of Duration of Status for Certain F and J Nonimmigrant Aliens	1615-AA27
1069	Registration Requirements and Work Authorization Eligibility for Aliens in the United States	1615-AA78

Bureau of Citizenship and Immigration Services—Completed Actions

Sequence Number	Title	Regulation Identification Number
1070	Adjustment of Immigration Benefit Application Fees	1615-AA92
1071	Adjustment of Status of Certain Aliens From Vietnam, Cambodia, and Laos in the United States	1615-AB02

U.S. Coast Guard—Proposed Rule Stage

Sequence Number	Title	Regulation Identification Number
1072	Claims Procedures Under the Oil Pollution Act of 1990 (CGD 91-035)	1625-AA03
1073	Post Casualty Drug and Alcohol Testing (USCG-2001-8773)	1625-AA27
1074	Update of Rules on Aids to Navigation Affecting Buoys, Sound Signals, International Rules at Sea, Communications Procedures, and Large Navigational Buoys (USCG-2001-10714)	1625-AA34
1075	Marine Events: Permit Procedures (USCG-2001-10713)	1625-AA35
1076	Drawbridge Operations Regulations; Revisions (USCG-2001-10881)	1625-AA36
1077	Rates for Pilotage on the Great Lakes (USCG-2002-11288)	1625-AA38
1078	Traffic Separation Schemes: In the Strait of Juan De Fuca and Its Approaches; In Puget Sound and Its Approaches; In Haro Strait, Boundary Pass, and in the Strait of Georgia (USCG-2002-12702)	1625-AA48
1079	Protection for Whistleblowers in the Coast Guard (USCG-2002-13016)	1625-AA50
1080	Country of Origin Codes and Revision of Regulations on Hull Identification Numbers (USCG-2003-14272)	1625-AA53
1081	Vessel Documentation: Lease Financing for Vessels Engaged in the Coastwise Trade; Second Rulemaking (USCG-2003-14472)	1625-AA63

U.S. Coast Guard—Final Rule Stage

Sequence Number	Title	Regulation Identification Number
1082	Reporting Marine Casualties (USCG-2000-6927)	1625-AA04
1083	Handling of Explosives or Other Dangerous Cargoes Within or Contiguous to Waterfront Facilities (USCG-1998-4302)	1625-AA07
1084	Tank Vessel Response Plans for Hazardous Substances (USCG-1998-4354)	1625-AA13
1085	Licensing and Manning for Officers of Towing Vessels (USCG 1999-6224)	1625-AA15

Proposed Rule Stage

**1072. CLAIMS PROCEDURES UNDER
 THE OIL POLLUTION ACT OF 1990
 (CGD 91-035)**

Priority: Substantive, Nonsignificant

Legal Authority: 33 USC 2713; 33 USC
 2714

CFR Citation: 33 CFR 136

Legal Deadline: None

Abstract: This rulemaking implements section 1013 (Claims Procedures) and section 1014 (Designation of Source and Advertisement) of the Oil Pollution Act of 1990. The interim rule provides the requirements for the filing of claims for uncompensated removal costs or damages resulting from the discharge of oil, for the designation of the sources of the discharge, and for the advertisement of where claims are to be filed. The interim rule also included the processing of natural resource damage (NRD) claims. The NRD claims, however, were not processed until September 25, 1997, when the Department of Justice issued an opinion that the Oil Spill Liability Trust Fund (OSLTF) is available without further appropriation to pay trustee NRD claims under the general claims provisions of the Oil Pollution Act of 1990, 33 U.S.C. 2712(a)(4). Release of the more comprehensive notice of proposed rulemaking has been delayed while the Coast Guard gained experience on NRD claims, as well as other OPA damages. This rulemaking supports the Coast Guard's strategic goal of protection of natural resources.

**1073. POST CASUALTY DRUG AND
 ALCOHOL TESTING (USCG-2001-8773)**

Priority: Other Significant

Legal Authority: PL 105-383, sec 304

CFR Citation: 46 CFR 4

Legal Deadline: None

Abstract: This project will revise the requirements for chemical testing following a serious marine incident. The revision will establish procedures to ensure that alcohol testing be conducted within two hours of a serious marine incident, as required by the Coast Guard Authorization Act of 1998. The rule will also make additional minor procedural changes to the part. This rule supports the Coast Guard strategic goal of maritime safety.

**1074. UPDATE OF RULES ON AIDS TO
 NAVIGATION AFFECTING BUOYS,
 SOUND SIGNALS, INTERNATIONAL
 RULES AT SEA, COMMUNICATIONS
 PROCEDURES, AND LARGE
 NAVIGATIONAL BUOYS (USCG-2001-
 10714)**

Priority: Info./Admin./Other

Legal Authority: 14 USC 81; 33 USC
 1231; 43 USC 1333; 46 USC 4302

CFR Citation: 33 CFR 60-76

Legal Deadline: None

Abstract: This rulemaking would revise 33 CFR subchapter C—Aids to Navigation, parts 60 through 76. In these parts, it would update technical information concerning buoys, sound signals, international rules at sea, communications procedures, and Large Navigational Buoys (LNBs). It would also revise these parts using plain language. The proposed changes would update the existing rules both to reflect current practices and to make them easier to understand. This rulemaking supports the Coast Guard's strategic goals of maritime safety and mobility.

1075. MARINE EVENTS: PERMIT PROCEDURES (USCG-2001-10713)

Priority: Substantive, Nonsignificant

Legal Authority: 33 USC 1233

CFR Citation: 33 CFR 100

Legal Deadline: None

Abstract: This rule would revise Coast Guard procedures to expedite approval of organized marine events conducted on the navigable waters of the United States. These new procedures would establish general permits with nationwide or regional applicability and would encourage sponsors to submit information to the Coast Guard by electronic means. These new procedures would reduce the paperwork burden on both the public and the Coast Guard without adversely affecting vessel safety or the environment in the event areas. This project supports the Coast Guard's strategic goals of maritime safety and maritime mobility.

1076. DRAWBRIDGE OPERATIONS REGULATIONS; REVISIONS (USCG-2001-10881)

Priority: Substantive, Nonsignificant

Legal Authority: 33 USC 499

CFR Citation: 33 CFR 117

Legal Deadline: None

Abstract: The Coast Guard is proposing changes to its drawbridge regulations that provide guidance for general requirements relating to the use and operation of drawbridges. This project will create a new deviation for short-term closures, provide Coast Guard Eight District Bridges Administration St. Louis with a general bridge closure requirement during the winter season when navigation is reduced, and eliminate any unnecessary distinction between commercial and recreational vessels in subpart B. It will also make changes throughout part 117 to remove redundancies, make amendments and technical corrections, and remove special bridge regulations that are no longer functional. Corrections and clarification of these requirements will help to streamline the drawbridge regulatory process and should shorten and simplify part 117 for the reader. This rulemaking supports the Coast Guard's strategic goal of maritime mobility.

1077. RATES FOR PILOTAGE ON THE GREAT LAKES (USCG-2002-11288)

Priority: Substantive, Nonsignificant

Unfunded Mandates: Undetermined

Legal Authority: 46 USC 9303(f)

CFR Citation: 46 CFR 401

Legal Deadline: None

Abstract: The Coast Guard conducts an annual review of the Great Lakes Pilotage based on the "Ratemaking Analyses and Methodology" published

in the Federal Register on May 9, 1996. Depending on the results of this review, the Coast Guard can make rate adjustments in accordance with 46 CFR part 404, appendix A, step 7; or, if the director determines that pilotage rates are within a reasonable range of their target, make no adjustments. This rulemaking may take place annually. It supports the Coast Guard's strategic goal of maritime mobility.

1078. TRAFFIC SEPARATION SCHEMES: IN THE STRAIT OF JUAN DE FUCA AND ITS APPROACHES; IN PUGET SOUND AND ITS APPROACHES; IN HARO STRAIT, BOUNDARY PASS, AND IN THE STRAIT OF GEORGIA (USCG-2002-12702)

Priority: Substantive, Nonsignificant

Legal Authority: 33 USC 1223

CFR Citation: 33 CFR 167

Legal Deadline: None

Abstract: This rulemaking will propose amendments to the existing traffic separation schemes: in the Strait of Juan de Fuca and its approaches; in Puget Sound and its approaches; in Haro Strait, Boundary Pass, and in the Strait of Georgia. These amendments are approved by the International Maritime Organization and have been validated by several recent vessel routing studies. With the amendments

DHS—USCG

Proposed Rule Stage

in place, commercial vessels would be routed farther offshore when entering or departing the TSS, providing an extra margin of safety and environmental protection in the Olympic Coast National Marine Sanctuary and adjacent waters. This rulemaking will incorporate the modified TSS into the Code of Federal Regulations. This project supports the Coast Guard's strategic goals of safety and protecting the marine environment.

RIN: 1625-AA48**1079. PROTECTION FOR WHISTLEBLOWERS IN THE COAST GUARD (USCG-2002-13016)****Priority:** Substantive, Nonsignificant**Legal Authority:** 10 USC 1034**CFR Citation:** 33 CFR 53**Legal Deadline:** None

Abstract: This rulemaking would amend 33 CFR part 53 both by extending coverage to uniformed members of the Coast Guard who make "protected" communications either to an organization within the Department within which the Coast Guard is operating concerned with audit, inspection, or law enforcement, or to any other person or organization

(including any person or organization in the chain of command) designated pursuant to regulations to receive such communications, and by extending the nature of protected communications to comprise complaints: (a) of violations of statute or regulation prohibiting sexual harassment; (b) of unlawful discrimination; and (c) of gross mismanagement.

RIN: 1625-AA50**1080. • COUNTRY OF ORIGIN CODES AND REVISION OF REGULATIONS ON HULL IDENTIFICATION NUMBERS (USCG-2003-14272)****Priority:** Substantive, Nonsignificant**Legal Authority:** 46 USC 4302**CFR Citation:** 33 CFR 181.27**Legal Deadline:** None

Abstract: By modifying a restriction on U.S. boat manufacturers when they label a boat with a hull identification number (HIN), this proposed rule would make it less expensive for the manufacturers to comply with an international HIN standard for boats they would like to export and thus this rulemaking would support the Coast Guard's strategic goal of maritime mobility.

RIN: 1625-AA53**1081. • VESSEL DOCUMENTATION: LEASE FINANCING FOR VESSELS ENGAGED IN THE COASTWISE TRADE; SECOND RULEMAKING (USCG-2003-14472)****Priority:** Other Significant

Legal Authority: 14 USC 664; 31 USC 9701; 42 USC 9118; 46 USC 2103; 46 USC 2107; 46 USC 2110; 46 USC 12106; 46 USC 12120; 46 USC 12122; 46 USC app 876

CFR Citation: 46 CFR 67**Legal Deadline:** None

Abstract: The Coast Guard proposes to amend its regulations on lease-financing provisions, of vessels engaged in the coastwise trade. This rule's provisions would address several issues. One concerns whether the Coast Guard should prohibit or restrict the chartering back of a lease-financed vessel to the parent of the vessel owner or to an affiliate or subsidiary of the parent. The second concerns the question of whether applications for an endorsement under the lease-financing provisions should be reviewed and approved by an independent third party with expertise in vessel chartering. The third concerns limitations on the grandfather provisions. These proposals would amend the final rule (USCG-2001-8825) on vessel documentation under lease financing.

**1082. REPORTING MARINE
CASUALTIES (USCG-2000-6927)**
Priority: Substantive, Nonsignificant**Legal Authority:** 46 USC 6101; 33 USC 1901 et seq**CFR Citation:** 33 CFR 151; 46 CFR 4**Legal Deadline:** None

Abstract: This action would add to the definition of a reportable marine casualty, "significant harm to the environment." Some casualty reporting requirements are extended to include foreign tank vessels operating in U.S. waters, including the Exclusive Economic Zone. This project supports the Coast Guard's Marine Safety and Environmental Protection program's goal to reduce the consequence of pollution incidents and further supports the Coast Guard's strategic goal of protection of natural resources.

**1083. HANDLING OF EXPLOSIVES OR
OTHER DANGEROUS CARGOES
WITHIN OR CONTIGUOUS TO
WATERFRONT FACILITIES (USCG-
1998-4302)**
Priority: Substantive, Nonsignificant**Legal Authority:** 33 USC 1231**CFR Citation:** 33 CFR 126**Legal Deadline:** None

Abstract: This rulemaking was intended to revise existing regulations covering waterfront facilities that handle dangerous cargoes. The present regulations are outdated and do not reflect improved safety procedures and modern transportation methods, such as the use of containers. Where appropriate, the regulations incorporate industry standards regarding the handling of hazardous materials at waterfront facilities. This project supports the Vice Commandant's workload reduction initiative and also supports the Coast Guard's strategic goal of maritime safety by reducing deaths and injuries in the maritime industry.

**1084. TANK VESSEL RESPONSE
PLANS FOR HAZARDOUS
SUBSTANCES (USCG-1998-4354)**
Priority: Other Significant**Legal Authority:** 33 USC 1231; 33 USC 1321(j); PL 101-380**CFR Citation:** 33 CFR 155**Legal Deadline:** None

Abstract: This project would implement provisions of the Oil Pollution Act of 1990 that require an owner or operator of a tank vessel carrying bulk hazardous substances to develop and operate in accordance with an approved response plan. The regulations would apply to vessels operating on the navigable waters or within the Exclusive Economic Zone (EEZ) of the United States that carry bulk hazardous substances. A separate rulemaking under RIN 1625-AA12 would address hazardous substances response plan requirements for marine transportation-related facilities. This project supports the Coast Guard's strategic goals of maritime safety and protection of natural resources by reducing the amount of chemicals entering the environment, as well as reducing the consequences of pollution incidents. This project is considered significant because of substantial public and industry interest.

1085. LICENSING AND MANNING FOR OFFICERS OF TOWING VESSELS (USCG 1999-6224)

Priority: Substantive, Nonsignificant

Legal Authority: 14 USC 633; 44 USC 3507; 46 USC 2103; 46 USC 7101; 46 USC 7106; 46 USC 7107; 46 USC 7701

CFR Citation: 46 CFR 10; 46 CFR 15

Legal Deadline: None

Abstract: This rulemaking is necessary as part of an overall initiative by the Coast Guard to improve navigational safety for towing vessels. It will help

ensure that the mariner piloting a towing vessel has the proper training and qualifications to handle the tug and tow. It has introduced a third level of license where there have been only two. Each level requires greater experience and proficiency than the one below. This rulemaking also introduces a requirement for demonstration of proficiency as a prerequisite to being issued an original license. This will be in addition to the current requirements for sea service, physical examination, testing for drugs, and successful testing for competence. This project supports the Coast Guard's strategic goal of maritime safety.

1086. LIMITED SERVICE DOMESTIC VOYAGE LOAD LINES FOR RIVER BARGES ON LAKE MICHIGAN (USCG-1998-4623)

Priority: Substantive, Nonsignificant

Legal Authority: 46 USC 51

CFR Citation: 46 CFR 45

Legal Deadline: None

Abstract: This regulatory project will allow certain unmanned dry cargo river barges operating on Lake Michigan to be exempted from the normal Great Lakes load line requirements. Instead, they may qualify for a conditional load line exemption, or for a limited service domestic voyage load line (depending on which Lake Michigan route). This rulemaking pertains to two specific routes: Chicago to Milwaukee, and Chicago to Muskegon. This will allow certain non-hazardous cargoes originating at inland river ports to be transported as far as Milwaukee and Muskegon by river barge, thereby benefiting from the relatively low cost per ton-mile of river barge transportation. Compliance is not mandatory other than for those river barge operators who voluntarily seek to expand their operations onto these routes. This rulemaking supports the Coast Guard's strategic goal of marine safety.

**1087. OUTER CONTINENTAL SHELF
ACTIVITIES (USCG-1998-3868)**

Priority: Substantive, Nonsignificant

Legal Authority: 43 USC 1333(d)(1); 43 USC 1348(c); 43 USC 1356

CFR Citation: 33 CFR 140 to 147

Legal Deadline: None

Abstract: This project would revise the regulations on Outer Continental Shelf (OCS) activities to: add new requirements for fixed OCS facilities for lifesaving, fire protection, training, hazardous materials used as stores, and accommodation spaces; require foreign vessels engaged in OCS activities to comply with requirements similar to those imposed on U.S. vessels similarly engaged; and allow all mobile inland drilling units (MIDUs) to operate on the OCS out to a defined boundary line if they meet requirements for lifesaving, firefighting, and operations similar to those for fixed OCS facilities. This project would affect the owners and operators of facilities and vessels engaged in offshore activities associated with the exploration for, development of, or production of the resources of the OCS. The preliminary estimate of costs imposed by these amendments varies according to the unit. The Coast Guard is consulting with the Minerals Management Service, part of the

Department of the Interior. It supports the Coast Guard's strategic goal of marine safety and environmental protection.

1998-3884)**

Priority: Substantive, Nonsignificant

Legal Authority: 33 USC 1503

CFR Citation: 33 CFR 148 to 150

Legal Deadline: None

Abstract: The Coast Guard purposes to revise the regulations governing deepwater ports, which are over 25 years old and which were written before any such port existed. The rulemaking will update the regulations with current technology and industry standards, and will align them with regulations for other fixed offshore

facilities. In addition, the rulemaking recognizes the requirement of the Maritime Transportation Security Act of 2002 that rules be issued as soon as practicable for the application and issuance of deepwater port licenses to natural gas facilities. This project supports the Coast Guard's strategic goals of maritime safety and protection of natural resources.

Final Rule Stage

Abstract: This rulemaking would grant an exemption from the present 7-knot speed limit in Tongass Narrows, Alaska, for float plane take-off and landing and vessels 23 feet in length or less. The geographic area for the speed limit would be expanded. A safety zone used for cruise ship anchorages would be redesignated as an anchorage area to reflect actual usage of the area and transiting vessels would be required to move quickly and directly through the anchorage, without rapid course changes, to increase safety. This project supports the Coast Guard's strategic goal of marine safety.

Priority: Other Significant**Legal Authority:** 46 USC 12106; 46 USC 12120; 46 USC 12122**CFR Citation:** 46 CFR 67**Legal Deadline:** None

Abstract: This rulemaking will amend the regulations on the documentation of vessels engaged in the coastwise trade. It is a spin-off of Vessel Documentation (USCG 1998-4784). These proposals address statutory amendments eliminating certain barriers to seeking foreign financing by lease for U.S. flag vessels. These proposals would clarify the information needed to determine the eligibility of a vessel financed in this manner for a coastwise endorsement. This rulemaking supports the Coast Guard's strategic goal of maritime mobility.

Abstract: This project will make substantive changes to current regulations, but only to the extent required to conform to the congressionally mandated changes in the laws administered and enforced by the Coast Guard as listed in section 301 of the Coast Guard Authorization Act of 1998 and sections 104 and 321 of

the Maritime Transportation Security Act of 2002. We will redefine the "territorial sea," "navigable waters of the United States," "high seas," "contiguous zone," and "exclusive economic zone" to clarify the varying definitions of those terms under different laws administered and enforced by the Coast Guard, as well as relevant Presidential proclamations. This project supports the Coast Guard's strategic goal of marine safety.

1094. NOTIFICATIONS OF ARRIVAL AND DEPARTURE IN PORTS OR PLACES IN THE UNITED STATES (USCG-2001-11865)

Priority: Substantive, Nonsignificant

Legal Authority: 33 USC 1223(a)(5); 33 USC 1226; 33 USC 1231

CFR Citation: 33 CFR 160

Legal Deadline: None

Abstract: The Coast Guard needs to permanently amend its regulations relating to the Notifications of Arrival (NOA) and Departure (NOD) requirements in 33 CFR part 160 to ensure port safety, security, and environmental protection as well as maintain the uninterrupted flow of commerce. Subsequent to the terrorist attacks of September 2001, we published an emergency temporary final rule (96-hour rule) amending the

NOA and NOD requirements for commercial vessels bound for or departing from ports or places in the United States. The temporary final rule terminated on March 31, 2003. In this final rule, most of the changes introduced by the temporary final rule have been made permanent. This rulemaking supports the Coast Guard's strategic goals of maritime safety, maritime security, protection of natural resources, and maritime mobility.

1097. VESSEL SECURITY (USCG-2003-14749)

Priority: Economically Significant. Major status under 5 USC 801 is undetermined.

Legal Authority: PL 107-295

CFR Citation: 33 CFR 104

Legal Deadline: Other, Statutory, November 25, 2003, Section 102(d) of Public Law 107-295 requires the issuance of a temporary interim rule as

soon as practicable that must expire not later than November 25, 2003, unless superseded by a final rule before that date.

Abstract: The Vessel Security rulemaking will affect owners and operators of U.S. vessels, including Mobile Offshore Drilling Units (MODUs) and public vessels, and foreign vessels calling on U.S. ports. This rulemaking will not cover fixed and floating platforms or other specific excluded vessels. Consistent with the Maritime Transportation Security Act of 2002 and parts A and B of the IMO International Code for Security of Ships and Port Facilities (ISPS Code), the affected vessels will be required to designate security officers, develop vessel security plans based security assessments and surveys, and implement security measures and procedures specific to each vessel's operations and to indicated Maritime Security (MARSEC) levels. Other proposed requirements include provisions for training, record keeping, security equipment maintenance, and communication procedures. This rulemaking supports the Coast Guard's strategic goals of maritime safety, maritime security, protection of natural resources, and maritime mobility.

DHS—USCG

Final Rule Stage

1098. • SAFETY ZONE FOR OUTER CONTINENTAL SHELF FACILITY IN THE GULF OF MEXICO IN VIASCA KNOLL 915 (CGD08-02-045)**Priority:** Substantive, Nonsignificant**Legal Authority:** 14 USC 85; 43 USC 1333**CFR Citation:** 33 CFR 147**Legal Deadline:** None

Abstract: The Coast Guard proposes to establish a safety zone around a high-production, manned oil and natural gas facility in the Outer Continental Shelf in the Gulf of Mexico in Viasca Knoll 915. The facility needs to be protected from vessels operating outside the normal shipping channels and fairways. Placing a safety zone around the facility will significantly reduce the threat of allisions, oil spills, and releases of natural gas. The proposed regulation would prevent all vessels from entering or remaining in specified areas around the facility except for the following: an attending vessel; a vessel under 100 feet in length overall not engaged in towing; or a vessel authorized by the Eighth Coast Guard District Commander. The proposed safety zone is necessary to protect life, property and the environment and supports the Coast Guard's strategic goals of marine safety and protection of natural resources.

RIN: 1625-AA54**1099. ALLOWING ALTERNATIVES TO INCANDESCENT LIGHTS, AND ESTABLISHING STANDARDS FOR NEW LIGHTS, IN PRIVATE AIDS TO NAVIGATION (USCG-2000-7466)****Priority:** Substantive, Nonsignificant**Legal Authority:** 14 USC 83; 14 USC 85; 43 USC 1333**CFR Citation:** 33 CFR 66**Legal Deadline:** None

Abstract: The Coast Guard is seeking to let the lighting industry and owners of private aids to navigation take advantage of a recent improvement in technology—one that enables the use of lanterns based on Light-Emitting Diodes (LEDs), which would reduce the consumption of power and simplify the maintenance of the aids. The use of these lanterns should stimulate competition in the industry, reduce maintenance, and therefore operating costs, and allow the marking of the aids in a desirable manner. This rule supports the Coast Guard's strategic goals of maritime safety and maritime mobility.

ALTERNATE HULL EXAMINATION PROGRAM FOR CERTAIN PASSENGER VESSELS, AND UNDERWATER SURVEYS FOR PASSENGER, NAUTICAL SCHOOL, AND SAILING SCHOOL VESSELS (USCG-2000-6858)****Priority:** Substantive, Nonsignificant**Legal Authority:** 46 USC 3305; 46 USC 3308**CFR Citation:** 46 CFR 71; 46 CFR 115; 46 CFR 167; 46 CFR 169; 46 CFR 176**Legal Deadline:** None

Abstract: This regulatory project will establish hull examination alternatives and a drydock extension policy for qualifying passenger vessels that operate exclusively on benign, low-risk environments, and that have limited time under way. In addition, the proposed regulations would provide the option of alternating drydock examinations with underwater surveys for passenger vessels. This project supports the Coast Guard's strategic Marine Safety, Security and Environmental Protection Program's goal of mobility by facilitating commerce and eliminating interruptions and impediments to the economical movement of goods and people.

1101. RULES OF PRACTICE, PROCEDURE, AND EVIDENCE FOR ADMINISTRATIVE PROCEEDINGS OF THE COAST GUARD (USCG 1998-3472)

Priority: Substantive, Nonsignificant

Legal Authority: 46 USC 7701; 46 USC 7702; 33 USC 1321; 42 USC 9609

CFR Citation: 33 CFR 20; 46 CFR 5

Legal Deadline: None

Abstract: The Coast Guard maintains two separate sets of procedural rules: the administrative adjudication rules against merchant mariners' licenses, certificates of registry, and documents; and those for the adjudication of class II civil penalties. The rules for suspension and revocation, contained in part 5 of title 46 of the Code of Federal Regulations (CFR), date from 1948, and are based on criminal procedure. The rules for class II civil penalties, contained in part 20 of title 33 of the CFR, date from 1994, and are based on the Model Rules of Administrative Procedure and on other modern rules for civil procedure. Neither set implements the authority of the Oil Pollution Act of 1990 (OPA 90), which provides for the temporary suspension of a license, certificate of registry, or document for up to 45 days without a hearing, in certain circumstances, and a hearing within 30 days of any such suspension. This rulemaking would consolidate all procedural rules for administrative adjudications for class II civil penalties, and allow the Coast Guard to promulgate regulations implementing

the OPA 90 authority. This project supports the strategic goal of the Coast Guard to promote marine safety. We are in the process of deciding how to respond to comments received.

1102. FIRE-SUPPRESSION SYSTEMS AND VOYAGE PLANNING FOR TOWING VESSELS (USCG 2000-6931)

Priority: Substantive, Nonsignificant

Legal Authority: 46 USC 3719; 46 USC 4102

CFR Citation: 33 CFR 157; 46 CFR 27

Legal Deadline: NPRM, Statutory, October 1, 1997.

Abstract: The Coast Guard proposes requirements for (a) total-flooding or other installed systems for suppressing fires on existing towing vessels, and (b) voyage-planning. The purpose of this rulemaking is to reduce oil spills from single-hull, non-self-propelled barges because drifting oil barges have run aground and spilled their cargoes, causing considerable damage to marine life and the environment. This project was developed in cooperation with the Towing Safety Advisory Committee. It supports the Coast Guard's strategic goals of maritime safety and protection of natural resources.

Additional Information: This rulemaking was formerly titled "Towing Vessel Safety (Fire Suppression Systems and Other Measures for Towing Vessels)" (CGD 97-064). It originally proposed requirements for three sets of issues relative to the safety of towing vessel safety issues: 1) Fire-suppression systems and other measures; 2) control measures for tank barges; and 3) fire-protection measures for towing vessels. The latter two components have developed into separate rulemakings: Emergency Control Measures for Tank Barges (USCG 1998-4443; RIN 2115-AF65), and Fire Protection Measures for

DHS—USCG

Final Rule Stage

Towing Vessels (USCG 1998-4445; RIN 2115-AF66).

1104. • AUTOMATIC IDENTIFICATION SYSTEM; VESSEL CARRIAGE REQUIREMENT (USCG-2003-14757)

Priority: Other Significant

Legal Authority: PL 107-295

CFR Citation: 33 CFR 161; 33 CFR 164; 33 CFR 165

Legal Deadline: Other, Statutory, November 25, 2003, Section 102(d) of Public Law 107-295 requires the issuance of a temporary interim rule as soon as practicable that must expire not later than November 25, 2003, unless superseded by a final rule before that date.

Abstract: The Coast Guard will amend certain ports and waterways regulations to reflect vessel carriage requirements, and technical and performance standards for an automatic identification system (AIS). The rule will implement the AIS vessel requirements of the Maritime Transportation Security Act of 2002 (MTSA) and the International Maritime Organization (IMO) requirements adopted under International Convention for the Safety of Life at Sea, 1974 (SOLAS), as amended. The changes will require AIS on all SOLAS vessels and certain other commercial vessels. The rule will facilitate vessel communications, enhance good order and predictability, promote safe navigation, expand maritime domain awareness, and improve upon existing operating measures on our nation's waterways. This rulemaking replaces a rulemaking we have withdrawn, RIN 1625-AA61 (Formerly 2115-AG36). We have withdrawn that rulemaking and have replaced it with this one that will specifically respond to the MTSA, including its requirement to publish a temporary interim rule (TIR). The TIR will focus on SOLAS vessels in all waters and domestic vessels operating in Vessel Traffic Service (VTS) and Vessel Movement Reporting System (VMRS) areas only. The public will be provided with an opportunity to comment on the TIR. Separate from this rulemaking, a notice will also be published seeking comments on AIS carriage requirements for non-VTS or non-VMRS areas, such as for other navigable waters per MTSA or domestic vessels over 500 gross tons per SOLAS. This new rulemaking supports Coast

Guard strategic goals of maritime safety, maritime security, protection of natural resources and maritime mobility.

1106. ● IMPLEMENTATION OF NATIONAL MARITIME SECURITY INITIATIVES (USCG-2003-14792)

Priority: Other Significant. Major status under 5 USC 801 is undetermined.

Legal Authority: PL 107-295

CFR Citation: 33 CFR 101 to 103; 33 CFR 105; 33 CFR 161; 33 CFR 164; 33 CFR 165; 46 CFR 104

Legal Deadline: Other, Statutory, November 25, 2003, Section 102(d) of Public Law 107-295 requires the issuance of a temporary interim rule as soon as practicable that must expire not later than November 25, 2003, unless superseded by a final rule before that date.

Abstract: The Coast Guard is implementing a series of temporary interim rules as required by Public Law 107-295, the Maritime Transportation Security Act of 2002 (MTSA). This series of temporary interim rules addresses security assessments, plans, and specific security measure requirements for Area Maritime Transportation Security, Vessel Security, Facility Security, and Offshore Facility Security. The carriage requirements for Automatic Identification System (AIS) are also included in this series of interim final rules. A comprehensive discussion of the security requirements included in the MTSA is presented in this rulemaking along with a summary of the cost and benefits of the entire suite of temporary interim rules. Discussions are also included on the alignment of domestic maritime security requirements with the International Ship and Port Facility Security (ISPS) Code and recent amendments to the International Convention for the Safety of Life at Sea (SOLAS). The actual temporary interim rules in this suite

limit their preamble discussions to the specific requirements they contain. Under the MTSA, a final rule for each of the six temporary interim rules will be issued before November 25, 2003. This rulemaking provides the elements and discussions common to the suite of related temporary interim rules. The public is encouraged to use this rulemaking as the foundation document for the entire suite.

Long-Term Actions

1107. SAFETY AND SECURITY ZONE REGULATIONS

Priority: Routine and Frequent

Legal Authority: 33 USC 1225; 33 USC 1226; 33 USC 1231; 33 USC 1233; 50 USC 191

CFR Citation: 33 CFR 100; 33 CFR 165

Legal Deadline: None

Abstract: The Coast Guard uses these routine and frequent regulations to establish control of access to areas to ensure the safety or security of events, vessels, waterfront facilities, or individuals. Many of these zones are of short duration, ranging from a few hours to a few days, and all are

geographically limited in area. Safety zones are established for events such as fireworks displays, high speed races, or the transit of dangerous cargoes such as explosives or liquefied petroleum gas. Security zones are established for Presidential or Vice Presidential visits, high profile events such as the Olympics, controversial events such as transport of spent nuclear fuel, and in response to the threat of terrorist attacks. Safety and security zones are promulgated by Captains of the Port or District Commanders. These routine and frequent rulemakings support the Coast Guard's strategic goals of marine safety, mobility, maritime security, and

national defense. The total actions expected from May 1, 2003, to May 1, 2004, are 300.

1108. SPECIAL ANCHORAGE AREAS/ANCHORAGE GROUNDS REGULATIONS

Priority: Routine and Frequent

Legal Authority: 33 USC 471; 33 USC 2030; 33 USC 2035; 33 USC 2071

CFR Citation: 33 CFR 110

Legal Deadline: None

Abstract: These routine and frequent regulations are established where maritime and commercial interests require them for safety of navigation. Special anchorage areas are areas in which vessels of not more than 65 ft. may anchor without displaying the required lights or sound signals. These special anchorage areas are limited geographically, and depending upon the purpose, establish both long- and short-term anchorages. Anchorage grounds are limited geographically, delineate the types and size of vessel which may use the anchorage, and may place time and other restrictions on its use. Special anchorage areas and anchorage grounds are promulgated by District Commanders in response to requests from appropriate officials. These routine and frequent rulemakings support the Coast Guard's strategic goal of marine safety. The total actions expected from May 1, 2003, to May 1, 2004, are 10.

1109. DISCHARGE-REMOVAL EQUIPMENT FOR VESSELS CARRYING OIL (CGD 90-068)

Priority: Other Significant

Legal Authority: 33 USC 1321

CFR Citation: 33 CFR 155

Legal Deadline: Final, Statutory, August 18, 1992.

Abstract: The Oil Pollution Act of 1990 directed the President by August 18, 1992, to require periodic inspection of discharge-removal equipment to ensure that it is available in an emergency, and to require carriage of discharge-removal equipment by vessels operating in the navigable waters of the United States and carrying oil or hazardous substances. This action implemented those provisions. This project supports the Coast Guard's strategic goal of protection of natural resources. This project is considered significant because of substantial public interest.

1110. ESCORT VESSELS FOR CERTAIN TANKERS (CGD 91-202)

Priority: Other Significant

Legal Authority: 46 USC 3703

CFR Citation: 33 CFR 168

Legal Deadline: None

Abstract: This rulemaking developed standards that implement section 4116(c) of the Oil Pollution Act of 1990. It addressed the areas of Prince William Sound and Puget Sound and requires a two-vessel escort for single-hull tankers greater than 5,000 gross tons. On November 1, 1994, the crash stop criteria were suspended because of industry concerns about meeting the criteria. On February 1, 1995, a notice of availability of a two-part study assessing the capability of escort tugs to control disabled tankers in Prince William Sound was published. This project supports the Coast Guard's Marine Safety and Environmental Protection program's goal to reduce the amount of oil discharged into the marine environment and the Coast Guard's strategic goal of protecting natural resources. This project is considered significant because of substantial public and State government interest.

Additional Information: We are in the process of deciding how to respond to the comments we have received. The Coast Guard, in cooperation with the Prince William Sound Regional Citizens Advisory Council, PWS Tanker Association, and Alaska Pipeline, conducted a disabled-tanker towing study. The results of the study were considered in this rulemaking. Tug escort requirements in areas other than Prince William Sound and Puget Sound are addressed in the project listed under RIN 1625-AA10.

1112. REGATTA AND MARINE PARADE REGULATIONS**Priority:** Routine and Frequent**Legal Authority:** 33 USC 1233**CFR Citation:** 33 CFR 100**Legal Deadline:** None

Abstract: These routine and frequent special local regulations ensure the safety of participants and spectators during regattas and marine parades. The regulations or rules specify such controls as separate participant and spectator areas, separation schemes for watercraft in the area of the event, and temporary restrictions on waterways to accommodate the event. These rules are short-term in nature, usually applying to a single event not exceeding eight hours in duration, and usually encompass only a small portion of a navigable waterway. These rules are

promulgated by District Commanders in response to a request from an event-sponsoring organization. These routine and frequent rulemakings support the Coast Guard's strategic goals of maritime safety and maritime mobility of commercial and recreational vessel traffic. The total actions expected from May 1, 2003, to May 1, 2004, are 35.

1113. DRAWBRIDGE REGULATIONS**Priority:** Routine and Frequent**Legal Authority:** 33 USC 499**CFR Citation:** 33 CFR 117**Legal Deadline:** None

Abstract: These routine and frequent regulations establish operating schedules and notice requirements for drawbridges across navigable waterways. Drawbridge regulations establish the permanent draw operation schedules for bridges and specify what notice mariners must give to request an opening. Short-term deviations from the permanent schedule may be issued for bridge repairs or to test the effectiveness of a proposed new opening schedule. Drawbridge regulations are promulgated by District Commanders usually at the request of the bridge owner or operator, or of local officials or local Coast Guard bridge administration officials. These routine and frequent rulemakings support the Coast Guard's strategic goals of maritime safety and maritime mobility of commercial and recreational vessel

1115. REGULATED NAVIGATION AREAS

Priority: Routine and Frequent

Legal Authority: 33 USC 1231; 50 USC 191

CFR Citation: 33 CFR 165

Legal Deadline: None

Abstract: These routine and frequent regulations establish operating requirements for vessels within specified geographic areas to ensure safety on the navigable waters where some special or unusual circumstance exists. Regulated navigation areas are limited areas in which the Coast Guard specifies operational or vessel restrictions such as vessel entry, movement or departure, and vessel size, speed, horsepower, or draft limitations. Regulated navigation areas are promulgated by District Commanders, usually at the request of Coast Guard marine safety or local maritime safety officials. These routine and frequent rulemakings support the Coast Guard's strategic goals of waterways management, marine safety, and maritime mobility. The total actions expected from May 1, 2003, to May 1, 2004, are 10.

1116. MARINE TRANSPORTATION-RELATED FACILITY RESPONSE PLANS FOR HAZARDOUS SUBSTANCES (USCG-1999-5705)

Priority: Other Significant

Legal Authority: 33 USC 1321(j); PL 101-380

CFR Citation: 33 CFR 154

Legal Deadline: None

Abstract: This project would implement provisions of the Oil Pollution Act of 1990 that require an owner or operator of a marine transportation-related facility transferring bulk hazardous substances to develop and operate in accordance with an approved response plan. The regulations would apply to marine transportation-related facilities that, because of their location, could cause harm to the environment by discharging a hazardous substance into or on the navigable waters or adjoining shoreline. A separate rulemaking, under RIN 1625-AA13, was developed in tandem with this rulemaking and addresses hazardous substances response plan requirements for tank vessels. This project supports the Coast Guard's strategic goals of maritime safety and protection of natural resources by reducing the consequence of pollution incidents. This action is considered significant because of substantial public and industry interest.

1117. NUMBERING OF UNDOCUMENTED BARGES (USCG-1998-3798)

Priority: Substantive, Nonsignificant

Legal Authority: 46 USC 12301

CFR Citation: 33 CFR 189

Legal Deadline: None

Abstract: Title 46 U.S.C. 12301, as amended by the Abandoned Barge Act of 1992, requires that all undocumented barges more than 100 gross tons operating on the navigable waters of the United States be numbered. This rulemaking would establish a numbering system for these barges. The numbering of undocumented barges will allow identification of owners of barges found abandoned and help prevent future marine pollution. This rulemaking supports the Coast Guard's strategic goal of protection of natural resources.

1118. IMPLEMENTATION OF THE 1995 AMENDMENTS TO THE INTERNATIONAL CONVENTION ON STANDARDS OF TRAINING, CERTIFICATION, AND WATCHKEEPING FOR SEAFARERS, 1978 (STCW) (CGD 95-062)

Priority: Other Significant

Legal Authority: 44 USC 3507; 46 USC 2103; 46 USC 7101; 46 USC 7107

CFR Citation: 46 CFR 10; 46 CFR 12; 46 CFR 15

Legal Deadline: None

Abstract: The International Maritime Organization (IMO) comprehensively amended the International Convention on Standards of Training, Certification and Watchkeeping for Seafarers, 1978 (STCW), in 1995. The amendments came into force on February 1, 1997. This project implements them by revising current regulations to ensure that the United States complies with their requirements on: the training of merchant mariners, the documenting of their qualifications, and watch-standing and other arrangements aboard seagoing merchant ships of the United States. This project supports the Coast Guard's strategic goal of maritime safety. It also supports the goal of our directorate for

Marine Safety and Environmental Protection for reducing deaths and injuries of crewmembers on domestic merchant vessels and eliminating substandard vessels from the navigable waters of the United States. This rulemaking is significant due to the potential impact on industry and the potential effect on international interests.

1119. SALVAGE AND MARINE FIREFIGHTING REQUIREMENTS; VESSEL RESPONSE PLANS FOR OIL (USCG-1998-3417)

Priority: Economically Significant. Major under 5 USC 801.

Unfunded Mandates: This action may affect the private sector under PL 104-4.

Legal Authority: 33 USC 1321

CFR Citation: 33 CFR 155

Legal Deadline: None

Abstract: Current vessel response plan regulations require that the owners or

DHS—USCG

Long-Term Actions

operators of vessels carrying groups I through V petroleum oil as a primary cargo identify in their response plans a salvage company with expertise and equipment, and a company with firefighting capability that can be deployed to a port nearest to the vessel's operating area within 24 hours of notification (groups I-IV) or a discovery of a discharge (group V). Numerous requests for clarification revealed widespread misunderstanding and confusion regarding the regulatory language, which will make the implementation of this requirement difficult. Based on comments received after the Vessel Response Plan final rule publication (61 FR 1052; January 12, 1996) and during a Coast Guard hosted workshop, the Coast Guard intends to better define the terms "salvage expertise and equipment" and "vessel firefighting capability" requirements and will reconsider the 24-hour deployment requirement which was scheduled to go into effect on February 18, 1998. Therefore, the Coast Guard suspended the effective dates of the 24-hour deployment requirements as published in the final rule. The Coast Guard will continue with this project to better define the requirements. This rulemaking supports the Coast Guard's strategic goals of maritime safety and protection of the natural resources. This rulemaking is also significant because it concerns a matter of substantial public interest or controversy.

1120. COMMERCIAL DIVING OPERATIONS (USCG-1998-3786)

Priority: Substantive, Nonsignificant

Legal Authority: 33 USC 1509; 43 USC 1333; 46 USC 3306; 46 USC 3703; 46 USC 6101

CFR Citation: 46 CFR 197

Legal Deadline: None

Abstract: This project involves reviewing and updating the commercial diving regulations, which are over 20 years old. A review of the commercial diving regulations is needed to determine what parts should be updated or changed based on the current standards of safety, technology, and industry practices and to evaluate and minimize any significant economic impact of the rules upon small entities. The project supports the Coast Guard Marine Safety, Security and Environmental Protection Program's goal to reduce deaths and injuries on U.S. commercial vessels and the Coast Guard's strategic goal of maritime safety.

1121. IMPROVEMENTS TO MARITIME SAFETY IN PUGET SOUND-AREA WATERS (USCG-1998-4501)

Priority: Other Significant

Legal Authority: 33 USC 1223 to 1224

CFR Citation: 33 CFR 1

Legal Deadline: None

Abstract: This rulemaking would promulgate measures to improve maritime safety in Puget Sound-Area waters including Puget Sound, the Strait of Juan de Fuca, passages around and through the San Juan Islands, and the Olympic Coast National Marine Sanctuary. Based on a determination by the Secretary of Transportation regarding the status of maritime safety in the Puget Sound area, the Coast Guard has initiated a comprehensive cost-benefit analysis to study the feasibility of implementing new safety measures, including extended tug escort requirements and a dedicated response vessel. Public input will help focus this cost-benefit analysis and develop any future proposed rules, if deemed necessary. This rulemaking supports the Coast Guard Marine Safety and Environmental Protection Program's goal to reduce the amount of oil discharged into the marine environment and the Coast Guard's strategic goal of protection of natural resources. This is a significant action due to substantial public interest.

1122. CARGO SECURING ON VESSELS OPERATING IN U.S. WATERS (USCG-2000-7080)

Priority: Substantive, Nonsignificant

Legal Authority: 46 USC 3306

CFR Citation: 33 CFR 97

Legal Deadline: None

Abstract: This rulemaking would amend the cargo stowage and securing rules for U.S. vessels operating in U.S. waters. In addition, it would amend rules to require cargo-securing manuals for U.S. or foreign vessels of 500 gross tons or more on international voyages. Its goal is to reduce hazardous material cargo losses from vessels in U.S. waters. It supports the Coast Guard's strategic goals of maritime safety and protection of natural resources.

1123. ELECTRONIC CHART DISPLAY AND INFORMATION SYSTEM (ECDIS) (USCG-2001-8826)

Priority: Substantive, Nonsignificant

Legal Authority: 33 USC 1223; 33 USC 1231; 46 USC 2103; 46 USC 3703; 46 USC 6101; 46 USC 8502

CFR Citation: 33 CFR 164

Legal Deadline: None

Abstract: This rulemaking would allow commercial vessels the option of using an IMO-approved Electronic Charting Display and Information System (ECDIS) as a primary means of navigation in U.S. waters instead of paper charts. Compliance with this rule would be optional; any vessel choosing not to use such an ECDIS must continue to navigate using corrected and updated printed charts and publications. This regulation supports the Coast Guard's strategic goal of maritime safety.

RIN: 1625-AA29

1124. FEDERAL REQUIREMENTS FOR PROPELLER INJURY AVOIDANCE MEASURES (USCG 2001-10163)

Priority: Substantive, Nonsignificant

Legal Authority: 46 USC 4302

CFR Citation: 33 CFR 175

Legal Deadline: None

Abstract: This rule would establish Federal requirements for nonplaning recreational houseboats equipped with propeller driven propulsion located aft of the transom. This rule would require owners of these non-planing recreational houseboats to install either one or two propulsion unit measures (a propeller guard or a jet pump drive) or employ three combined measures (use of an ignition cut-off switch, where installed, and install a swim ladder interlock device and an aft-visibility device). Owners of rental houseboats would have to also install an ignition cut-off switch, if not already installed. These requirements would reduce the number of boaters who are seriously or fatally injured when struck by the propeller of a nonplaning recreational houseboat. This rulemaking would implement recommendations made by the National Boating Safety Advisory Council. It supports the Coast Guard's strategic goal of marine safety.

1126. ALTERNATE TONNAGE CONVENTION: SMALL PASSENGER VESSELS

Priority: Other Significant. Major status under 5 USC 801 is undetermined.

Unfunded Mandates: Undetermined

Legal Authority: 14 USC 14104

CFR Citation: Not Yet Determined

Legal Deadline: None

Abstract: This rulemaking would amend small passenger vessel regulations retaining the tonnage thresholds based on measurement under 46 U.S.C. 14502, but adding alternate tonnage thresholds based on measurement under 46 U.S.C. 14302. We expect this rulemaking to support the Coast Guard's strategic goals of maritime mobility of commercial vessel traffic and maritime safety. However, we are reviewing our regulatory resource allocation and management strategies to optimize our overall regulatory mission effectiveness. Accordingly, we have decided to continue this item on the agenda, while we consider and balance our statutory obligations and discretionary authority.

1127. WEARING OF PERSONAL FLOTATION DEVICES BY PERSONS OPERATING OR RIDING ON PERSONAL WATERCRAFT OR BEING TOWED BEHIND RECREATIONAL VESSELS (USCG-2002-11421)

Priority: Substantive, Nonsignificant

Legal Authority: 46 USC 4302

CFR Citation: 33 CFR 175

Legal Deadline: None

Abstract: This rule would require every person to wear a personal flotation device (PFD)—also called a lifejacket—while operating or riding on personal watercraft (PWC) or being towed behind a recreational vessel. On waters subject to the jurisdiction of the United States within any State or territory, the rule would not preempt any requirement established for such

persons as specified by that State. The rule would set a Federal requirement on waters subject to the jurisdiction of the United States within any State or territory. The new requirement would reduce the number of persons who drown while participating in these activities. This project supports the Coast Guard's strategic goal of maritime safety.

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Unfunded Mandates: Undetermined

Legal Authority: 46 USC 2103

CFR Citation: Not Yet Determined

Legal Deadline: None

Abstract: The Coast Guard is considering a project to update standards and procedures for identifying people aboard vessels, and at ports and facilities on waterfronts. These standards and procedures might include checks of backgrounds for people in security-sensitive positions, but would take account of (and as far as possible be compatible with) efforts to the same effect from international bodies, other Federal agencies, and States.

The purpose of the project would be to deter terrorism. The project would support the Coast Guard's strategic goals of maritime security, maritime safety, protection of natural resources, and mobility.

1131. VESSEL TRAFFIC SERVICE LOWER MISSISSIPPI RIVER (USCG-1998-4399)

Priority: Substantive, Nonsignificant

Legal Authority: 33 USC 1223(a)

CFR Citation: 33 CFR 26; 33 CFR 161; 33 CFR 165

Legal Deadline: None

Abstract: This project proposes to establish a new Vessel Traffic Service (VTS) area in the Lower Mississippi River region. This Vessel Traffic Service Area (VTSA) will span from 20 miles north of Baton Rouge (mile 255 Above Head of Passes (AHP)) out to sea, including the South and Southwest Pass. As part of the VTSA, a VTS Special Area will be designated between mile 93.5 and 95 AHP. Unlike traditional VTSs, which are based on radar and video surveillance and rely on voice communications by VHF-FM

radio, when fully operational VTS Lower Mississippi River will use Automatic Identification System transponder technology to perform the majority of both surveillance and information exchange. This rulemaking supports the Coast Guard's strategic goals of maritime safety and protection of natural resources.

1134. SAFETY ZONES FOR OUTER CONTINENTAL SHELF FACILITIES IN THE GULF OF MEXICO (CGD08-01-025)

Priority: Substantive, Nonsignificant

Legal Authority: 14 USC 85; 33 USC 2071

CFR Citation: 33 CFR 147

Legal Deadline: None

Abstract: The Coast Guard proposes to establish safety zones around five petroleum and gas production facilities in the Outer Continental Shelf in the Gulf of Mexico. The four platforms and one moored spar buoy need to be protected from vessels operating outside the normal shipping channels and fairways. Placing safety zones around these facilities will significantly reduce the threat of allisions, oil spills, and releases of natural gas. The proposed regulation would prevent all vessels from entering or remaining in

specified areas around the platforms except for the following: an attending vessel; a vessel under 100 feet in length overall not engaged in towing; or a vessel authorized by the Eighth Coast Guard District Commander. The proposed safety zones are necessary to protect the safety of life, property, and the environment and support the Coast Guard's strategic goals of marine safety and protection of natural resources.

1138. TEMPORARY REQUIREMENTS FOR NOTIFICATION OF ARRIVAL IN U.S. PORTS (USCG-2001-10689)

Priority: Substantive, Nonsignificant

Legal Authority: 33 USC 1223; 33 USC 1226; 33 USC 1231; 49 CFR 1.46

CFR Citation: 33 CFR 160

Legal Deadline: None

Abstract: To ensure public safety and security and to ensure the uninterrupted flow of commerce, the Coast Guard is extending its temporary rule changing notification requirements for vessels bound for or departing from U.S. ports. This rulemaking will lengthen the usual notification period from 24 to 96 hours prior to port entry, require submission of reports to a central national clearinghouse, suspend exemptions for vessels operating in compliance with the Automated Mutual Assistance Vessel Rescue System, for some vessels operating on the Great Lakes and vessels on scheduled routes, and require information about persons onboard these vessels. This rulemaking is necessary to ensure receipt of comprehensive and timely information on vessels entering U.S. ports. The extension of the temporary rule will allow the Coast Guard to complete its rulemaking to permanently revise the notice of arrival requirement. This rulemaking supports the Coast Guard's strategic goal of maritime security.

1139. AUTOMATIC IDENTIFICATION SYSTEM CARRIAGE REQUIREMENT (USCG-2002-11721)

Priority: Other Significant

Legal Authority: 33 USC 1223(a)

CFR Citation: 33 CFR 161; 33 CFR 164; 33 CFR 165

Legal Deadline: None

Abstract: The Coast Guard would amend certain ports and waterways regulations to reflect international technical and performance standards for an automatic identification system (AIS). It would implement the International Maritime Organization (IMO) AIS carriage requirement adopted under International Convention for the Safety of Life at Sea, 1974 (SOLAS), as amended. The rule would facilitate vessel communications, enhance good order and predictability, promote safe navigation, expand maritime domain awareness, and improve upon existing operating measures on our nation's waterways. This rulemaking is being withdrawn so that it can be modified and reissued in conformance with the Maritime Transportation Security Act (MTSA) of 2002. The new rulemaking, RIN 1625-AA67, is described elsewhere in this spring 2003 agenda.

1140. GREAT LAKES MARITIME ACADEMY—ELIGIBILITY OF CERTAIN GRADUATES FOR UNRESTRICTED THIRD-MATE LICENSES (USCG-2002-13213)

Priority: Substantive, Nonsignificant

Legal Authority: 14 USC 633; 31 USC 9701; 46 USC 2101; 46 USC 2103; 46 USC 2110; ...

CFR Citation: 46 CFR 10

Legal Deadline: None

Abstract: This rulemaking removes a restriction on the eligibility of some Great Lakes Maritime Academy graduates for ocean vessel third mate licensing. It furthers the Coast Guard's strategic goals of maritime safety, protection of natural resources, and maritime mobility.
