

- [-] Operational Medicine and Primary Care Medicine (N)
  - [-] Core Privileges
    - [-] Preliminary diagnosis, initial treatment, or stabilization of:

<u>Privilege(s)</u>	<u>Supported</u>	<u>Not Supported</u>
 Myocardial infarction	<input checked="" type="radio"/>	<input type="radio"/>
 Cardiac dysrhythmia	<input checked="" type="radio"/>	<input type="radio"/>
 Fluid and electrolyte disorders (All age groups)	<input checked="" type="radio"/>	<input type="radio"/>
 Evaluation and treatment of patients with temperature-related injuries: heat	<input checked="" type="radio"/>	<input type="radio"/>
 Burns	<input checked="" type="radio"/>	<input type="radio"/>
 Shock	<input checked="" type="radio"/>	<input type="radio"/>
 Fractures	<input checked="" type="radio"/>	<input type="radio"/>
 Penetrating wounds	<input checked="" type="radio"/>	<input type="radio"/>
 Depressed level of consciousness and coma	<input checked="" type="radio"/>	<input type="radio"/>
 Abdominal surgical emergencies (all age groups)	<input checked="" type="radio"/>	<input type="radio"/>
 Appendicitis	<input checked="" type="radio"/>	<input type="radio"/>
 Abdominal and gastrointestinal disorders	<input checked="" type="radio"/>	<input type="radio"/>
 Psychosis and potential suicide	<input checked="" type="radio"/>	<input type="radio"/>
 Poisoning	<input checked="" type="radio"/>	<input type="radio"/>
 Pyelonephritis	<input checked="" type="radio"/>	<input type="radio"/>
 Testicular torsion	<input checked="" type="radio"/>	<input type="radio"/>
 Hernia	<input checked="" type="radio"/>	<input type="radio"/>
 Urinary calculi	<input checked="" type="radio"/>	<input type="radio"/>
 Pulmonary insufficiency	<input checked="" type="radio"/>	<input type="radio"/>
 Decompression sickness	<input checked="" type="radio"/>	<input type="radio"/>
 Penetrating eye injuries	<input checked="" type="radio"/>	<input type="radio"/>
 Iritis	<input checked="" type="radio"/>	<input type="radio"/>
 Glaucoma	<input checked="" type="radio"/>	<input type="radio"/>
 Psoriasis and skin malignancy	<input checked="" type="radio"/>	<input type="radio"/>
 Pregnancy	<input checked="" type="radio"/>	<input type="radio"/>
 Pelvic pain	<input checked="" type="radio"/>	<input type="radio"/>
 Pelvic inflammatory disease	<input checked="" type="radio"/>	<input type="radio"/>
 Dysfunctional uterine bleeding	<input checked="" type="radio"/>	<input type="radio"/>
 Threatened, incomplete, and completed abortion	<input checked="" type="radio"/>	<input type="radio"/>
 Drug overdose	<input checked="" type="radio"/>	<input type="radio"/>
 Ruptured tubal ectopic pregnancy	<input checked="" type="radio"/>	<input type="radio"/>

  Diagnostic or therapeutic procedures:

<u>Privilege(s)</u>	<u>Supported</u>	<u>Not Supported</u>
 Lumbar puncture	<input type="radio"/>	<input checked="" type="radio"/>
 Arterial blood gas sampling	<input type="radio"/>	<input checked="" type="radio"/>
 Initial interpretation of electrocardiogram before consultant confirmation	<input checked="" type="radio"/>	<input type="radio"/>
 Initial interpretation of chest, abdominal, skull, facial bone, and extremity x-rays before consultant confirmation	<input checked="" type="radio"/>	<input type="radio"/>
 Incision and drainage of superficial abscess	<input checked="" type="radio"/>	<input type="radio"/>
 Preparation and interpretation of potassium hydroxide and saline mounts for pathogens	<input checked="" type="radio"/>	<input type="radio"/>
 Incision and drainage of thrombosed external hemorrhoids	<input checked="" type="radio"/>	<input type="radio"/>
 Urethral catheterization	<input checked="" type="radio"/>	<input type="radio"/>
 Removal of corneal foreign body - use of Schiottz tonometer	<input checked="" type="radio"/>	<input type="radio"/>
 Initial interpretation of audiogram before consultant confirmation	<input checked="" type="radio"/>	<input type="radio"/>
 Preparation and interpretation of Gram stains for pathogens	<input checked="" type="radio"/>	<input type="radio"/>
 Performance of PAP smears	<input checked="" type="radio"/>	<input type="radio"/>
 Performance of pelvic examination	<input checked="" type="radio"/>	<input type="radio"/>
 Splinting and stabilizing spine or extremity injuries	<input checked="" type="radio"/>	<input type="radio"/>
 Performance of fluorescein stain for conjunctival lesions	<input checked="" type="radio"/>	<input type="radio"/>
 Suture closure, one layer	<input checked="" type="radio"/>	<input type="radio"/>
 Eye irrigation	<input checked="" type="radio"/>	<input type="radio"/>
 Administration of local anesthesia for wound infiltration and suturing of minor lacerations not involving nerves, tendons or vessels	<input checked="" type="radio"/>	<input type="radio"/>
 Intravenous infusion	<input checked="" type="radio"/>	<input type="radio"/>

  Comprehensive examination, diagnosis and management of:

<u>Privilege(s)</u>	<u>Supported</u>	<u>Not Supported</u>
 Uncomplicated gynecologic problems, including vaginitis and sexually transmitted disease, contraception advice, prescription of oral contraceptives, and screening pelvic examination	<input checked="" type="radio"/>	<input type="radio"/>
 Uncomplicated internal medicine problems, including cardiac disease, arthritis, gastrointestinal disease, hepatic disease, infectious disease, hypertension, anemia, pulmonary disease, renal disease, diabetes, neurologic disease and thyroid disease	<input checked="" type="radio"/>	<input type="radio"/>
 Uncomplicated dermatologic problems, not to include psoriasis or malignancy, but including acne, Verrucae, herpes simplex, seborrhea, dyshidrosis, scabies, pediculosis, cold injury, immersion dermatitis, plantar warts, corns, callus, and excisional punch biopsy	<input checked="" type="radio"/>	<input type="radio"/>
 Uncomplicated orthopedic problems including muscle strain, sprains, low back pain, bursitis, tendonitis and minor musculoskeletal trauma	<input checked="" type="radio"/>	<input type="radio"/>
 Uncomplicated otolaryngologic problems, including otitis media and externa, cerumen occlusion of canal, pharyngitis, laryngitis, removal of nasal or auditory canal foreign body, nosebleed, and rhinitis	<input checked="" type="radio"/>	<input type="radio"/>
 Uncomplicated urological problems, including cystitis, prostatitis, epididymitis, and sexually-transmitted disease	<input checked="" type="radio"/>	<input type="radio"/>
 Uncomplicated behavioral problems, including crisis intervention, short-term individual counseling for difficulty with interpersonal relationships or adapting to authority, and problems related to substance use and abuse	<input checked="" type="radio"/>	<input type="radio"/>
 Uncomplicated environmental or occupationally-related problems, including asbestos, heat, and noise exposure screening and monitoring	<input checked="" type="radio"/>	<input type="radio"/>
 Uncomplicated ophthalmologic problems, including conjunctivitis, visual acuity testing, corneal abrasion, and conjunctival foreign body	<input checked="" type="radio"/>	<input type="radio"/>
 Routine, uncomplicated prenatal care, up to 20 weeks gestation	<input checked="" type="radio"/>	<input type="radio"/>
 Uncomplicated pediatric problems, including well child care, pediatric preventive care counseling, otitis, bronchitis, pneumonia, asthma, gastroenteritis and viral exanthemas	<input checked="" type="radio"/>	<input type="radio"/>
