

Ergonomic Hazards Evaluation Software

Ergonomics Education, Awareness, System Evaluation and Recording, ErgoEASER, is a software package to identify, evaluate, and prevent work-related musculoskeletal disorders. The Department of Energy, Pacific Northwest National Laboratory, and other agencies combined efforts to develop this innovative software.

Federal Agencies and their contractors may obtain a Government Licensed version of ErgoEASER 2.0 from the U. S. Department of Energy's centralized software management facility (Energy Science and Technology Software Center <http://www.osti.gov/html/osti/estsc/estsc.html>).
