MEMORANDUM FOR: SAR Coordinators, On-Scene Commanders, and Decision Makers

SUBJECT: Updated Inland SAR Planning Course Schedule for Federal Fiscal Year 2009

1. The FY09 National Search and Rescue School Inland SAR Planning Course schedule is listed below.

<u>Number</u>	<u>Dates</u>	<u>Location</u> <i>(Specific locations are subject to change)</i>	<u>Application Deadline</u>
09-01	20 – 24 Oct 08	Syracuse, NY	11 Sep 08
09-02	17 – 21 Nov 08	Nashville TN	09 Oct 08
09-03	15 – 19 Dec 08	TRACEN Yorktown, VA	06 Nov 08
09-04	12 – 16 Jan 09	Camp Murray, WA	04 Dec 08
09-05	09 – 13 Feb 09	Lakeland, FL	05 Jan 09
09-06	09 – 13 Mar 09	Denton County, TX	29 Jan 09
09-07	20 – 24 Apr 09	TRACEN Yorktown, VA	16 Mar 09
09-08	11 – 15 May 09	Warwick, RI	26 Mar 09
09-09	22 – 26 Jun 09	Las Vegas, NV	04 May 09
09-10	13 – 17 Jul 09	Cincinnati, OH	04 Jun 09
09-11	17 – 21 Aug 09	Boise, ID	06 Jul 09
09-12	21 – 25 Sep 09	Trenton, NJ	13 Aug 09

2. The Inland SAR planning class is not for beginners. It is an advanced course for experienced on-scene decision makers, planners, operations leaders, and direct support staff members. It presents mathematically based search planning tools with solid theoretical underpinnings, along with some allied topics, focused on improving overall SAR response and success.

3. Openings in each class are limited and must be shared between a variety of agencies and student backgrounds, experience levels, and organizational tiers. While the school accepts applications directly, it is preferred the state or agency SAR Coordinator review applications to make certain he/she is kept abreast of what is happening in the state and to ensure the right people are selected.

a. Application deadlines are approximately 40 - 45 days before class start dates. A welcome package will be sent to confirm attendance approximately 30 days before class start dates and students must firmly commit to attend at that time. Interested agencies should contact the school early to reserve quotas.

b. CAP members must apply through their wing training office to CAP National HQ only.

4. The classes are offered tuition-free to US citizens involved directly in SAR. However, each student or their organization is responsible for all personal expenses, travel, lodging, meals, etc.

5. For questions, registration information, or to discuss sponsoring a class in FY09 please contact the school at (757) 856-2273, by fax at -2242, or by e-mail to TCY-PF-InlandSAR@uscg.mil. You can also check the school web page at <http://www.uscg.mil/tcyorktown/Ops/SAR/Inland/default.asp> for more information.

Sincerely,

Eric J. Steward, Lt Colonel, USAF
Director, USAF National SAR School

INLAND SEARCH AND RESCUE PLANNING COURSE

(AFCAT 36-2223 course number: E5AZG1C371-00AA)

The National Search & Rescue School was established in 1966 as a facility devoted exclusively to training professionals to conduct search and rescue (SAR). The school is currently located at USCG Training Center Yorktown, Virginia, and teaches a variety of maritime and inland search planning courses. Graduates number over 22,000 men and women, civilian and military, including over 1,800 from 103 foreign nations.

The 5-day Inland SAR Planning course is a comprehensive, "graduate-level" look at inland search theory and its application to land and air searches for missing persons and aircraft with a focus on wilderness, not urban, searches.

The course consists of classroom lessons and practical, tabletop exercises. This course does not incorporate field training. Emphasis is on the planning necessary for effective area-type searching during an extended search using Probability of Success (POS), rather than just a few elements of POC (POA) or POD, to predictively allocate limited resources to their best effect. In essence, what to do after the hasty search and specialty resources have not found the missing person. Additional topics include pre-plan development, legal aspects, NIIMS ICS applied to SAR, the federal role in SAR, and related subjects. The course does not teach search tactics or technical procedures, as those are well covered from other readily available sources.

The course is directed toward SAR leaders in federal, state, and local emergency services and law enforcement, as well as Civil Air Patrol, international, and volunteer SAR agencies -- **those few people who are responsible for the planning and overall conduct of inland search missions**. The target audience includes on-scene incident commanders and their planners, operations leaders, and up-channel reporting chain. The general searcher or search team leader, while arguably the most important part of the SAR team, will not find this course useful.

Aiming to "find the objective fast," the course centers on tools to help SAR decision makers determine where to search, how to divide an area between limited search resources, and how to craft the overall search effort to gain the best increases in likelihood of success at each step. The tools are mathematically based and not for the faint of heart; they help quantify the uncertainties of the search problem to allow consistent application throughout a mission.

Classes begin promptly at 0800 on the convening date and graduate by 1500 on the fifth day.

Prior to class, students should review and be conversant on the following from their own agencies in order to make class discussions more useful and help integrate class materials with their own search environments back home:

- o Search pre-plans
- o Decision making guidelines for where/when/how to search
- o Agreements and relationships with other SAR agencies
- o How their agency organizes on scene
- o Recent search missions

A firm grounding in SAR terminology and employment techniques, practical SAR experience, basic arithmetic and calculator skills, an understanding of local SAR mission management requirements, and **an open mind** are essential.
