Subject: SLF TONNAGE CG UPDATE: 26 OCT 2010 (FINAL)
Attachments: SLF_53-5.pdf

Dear Correspondence Group Participants:

The correspondence group's report (SLF 53/5 dated 7 October 2010) has been posted on IMO's website. A copy of the report is attached, and we are in the process of posting it on the Tonnage CG website as well.

The report is unchanged from the document I circulated earlier, except for some non-substantive changes made to reduce its length to 20 pages (not including the 2 blank pages that are in SLF 53/5). These changes involved removing the restatement of the terms of reference (TOR) from the report, along with some formatting adjustments. This was done to comply with new rules which took effect recently to reduce costs, and which I regrettably overlooked (reports longer than 20 pages now have to be structured a certain way). My apologies for any confusion that this has caused.

On that note, my work as coordinator is done. I asked Mr. Jimenez to continue to keep the Tonnage CG website up and running, and to update it with any tonnage related papers. This will permit continued "one stop shopping" for this issue, at least through the SLF 53 meeting that will be held 10-14 January 2011.

Please accept again my thanks for your engagement in moving this important issue forward. I hope to have the pleasure of meeting some of you for the first time, and seeing others again, in London at SLF 53.

Best Regards,

Peter Eareckson
