

USCGC DAUNTLESS (WMEC 624)
COMMAND PHILOSOPHY

THE SPIRIT OF SIN MIEDO

Teamwork + Excellence + Accountability = Success

The **DAUNTLESS** legacy is rich in history and achievement. She is respected by her allies and feared by her enemies. She is our home and livelihood. We will care for her, she will protect us.

DAUNTLESS is a Team effort. Every job is vital, and every team member is crucial. It takes positive attitude, hard work and lots of practice to be the best. I will dedicate myself to helping you be the best if you will bring the attitude and desire needed to accomplish it. In that spirit, we will establish a reputation for Excellence in all we do.

By making it habit to do the small things right, the best we can, the big stuff will take care of itself. With our own competence established, we can then turn to the apprentices in our midst and mentor them to grow and achieve. Accountability will define our actions.

There will be challenges and obstacles along the way. Not every evolution will go smoothly. These challenges will draw us ever closer together. Supporting each other, we will accomplish our missions fearlessly and with distinction. Together, we will achieve the highest levels of Success.

We have been blessed with this time and this opportunity aboard **DAUNTLESS**. Let us not squander it – and when our time is done, we will pass the treasure of **DAUNTLESS** on to the next crew, better than when we found it...and we will be better because of it.

In DAUNTLESS, we have Zero Tolerance For:

Drug or Alcohol Abuse
Hazing or Discrimination
Inappropriate or Unacceptable Personal Relationships
