CREW AND SHIP GO OUT FOR PATROL

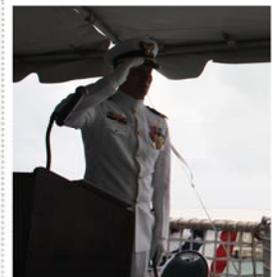

For the past few weeks, the crew members of THETIS have been working hard in the Caribbean sun. In order to combat the high temperatures, there have been several swim calls where just about everyone, including the Captain, could be seen jumping from the flight deck. The crew enjoyed the port calls in Guantanamo Bay, Cuba and San Juan, Puerto Rico where members snorkeled, biked, relaxed on the beach, and visited historic forts. Pizza nights every Saturday were a great success, where every department got a chance to share their culinary skills with the rest of the crew. Congratulations to DC2 Stacey, OS2 Rivera, and SN Davis who all advanced during the patrol.
