265	Rec Deck Upgrade	We would like to upgrade our Recreation deck/Mess deck side-by-side galley style refrigerator and purchase some new pots and pans. Our current refrigerator is frequently having icing problems on the compressor and our pots and pans are unusable due to missing Teflon. STA Seattle is not designated as a CG dining facility therefore we are unable to use unit funds to purchase these items. With duty personnel onboard the unit 24/7 for Search and Rescue and our mission/operational schedule being very hectic, this refrigerator is used by the crew to store meals and snacks and the pots and pans are used to prepare meals. The Base Seattle Galley is not always an option for our crews due to the unpredictable mission schedule that we have. Funding for these items would greatly enhance morale and contribute to the well being of our duty standing personnel. The total cost for these items is approx \$7k for the frig and \$400 for pots/pans	\$7,500	STA Seattle	D13			\$	-	\$	-
