

MARK C. TREXLER, Ph.D
Director of Climate Strategies and Markets,
Det Norske Veritas

Dr. Trexler has more than 25 years of energy and environmental expertise, focusing on global climate change since joining the World Resources Institute in 1988. He is currently responsible for expanding DNV's North American climate change related activities, particularly with respect to strategic and market advisory services. This includes building the group's public and private business and client networks around climate advisory services, and providing strategic and market support to DNV's business units in the U.S and internationally. He previously was director at EcoSecurities, where he directed an international team of consultants providing a wide range of consulting services from carbon inventories and footprinting to carbon market forecasting and corporate strategic planning. Prior to that, Dr. Trexler was president of Trexler Climate + Energy Services, Inc., which he founded in 1991 and which was the first consulting firm to specialize in providing climate change related services to corporate clients. Dr. Trexler was previously with the Climate, Energy, and Pollution Program of the World Resources Institute, and has served on the Intergovernmental Panel on Climate Change. Dr. Trexler is based out of Portland, Oregon.
