

THE UNITED STATES COAST GUARD BAND

Commander Adam R. Williamson, Director

announces the following vacancy:

Live Sound Audio Engineer

Job Description

Primary Duty:

- Serve as the lead sound reinforcement engineer for the 55-piece U.S. Coast Guard Concert Band, Jazz Big Band, small jazz groups, and chamber ensembles. Events and performances include concerts and recording sessions both in-house and on the road in both indoor and outdoor venues.
- Coordinate logistics with in-house personnel and off-site venues.
- Maintain and repair audio equipment.
- Supervise and train supporting staff.
- Perform recording duties as needed.

Qualifications:

- Degree in Audio Engineering plus professional experience.
- A thorough understanding of sound reinforcement and classical recording techniques.
- Familiarity with the full array of sound reinforcement and recording equipment.
- Proficiency with audio analysis software such as SMAART or other industry standard equivalent.
- Ability to lift, move, and set-up audio equipment.
- Possess strong troubleshooting skills with attention to detail.
