CLAIM SUMMARY / DETERMINATION

Claim Number:	913082-0001
Claimant:	Oil Mop, LLC, dba OMI Environmental Solutions
Type of Claimant:	OSRO
Type of Claim:	Removal Costs
Claim Manager:	Donna Hellberg
Amount Requested:	\$6,368.60

FACTS: On October 15, 2011, OMI Environmental Solutions (OMI) was contacted by Mr. Clay Kimbrell on behalf of Ig Petroleum, LLC. Ig Petroleum, LLC is the well operator for West Delta Block 84. Ig Petroleum LLC informed OMI that they needed a crew to deploy boom around the well head that had started leaking and leaked oil into Southwest Pass of the Mississippi River, a navigable waterway of the US. Mr. Elliott Black was the Company Representative for which OMI worked directly with.

OMI mobilized two people to deploy boom as requested around the well head until such time as necessary repairs could be made. OMI charged the Responsible Party for response services on day one and then subsequently charged for boom rental from October 16, 2011 through October 21, 2011 when it was determined boom would need to remain in place for an extended period of time. As such, OMI ceased charging the RP the rental rate and agreed to sell the boom to Ig Petroleum for a lump sum discounted price of \$1,700.00. Louisiana State Police were notified of the incident and report # 11-06467 was generated but not provided to OMI. OMI invoiced the RP on March 22, 2012 which the RP has not paid to date.

The National Pollution Funds Center (NPFC) issued an RP Notification letter to Ig Petroleum at its corporate address of P.O. Box 4229, West McLean, VA 22103. Mr. Robert M. Hallmark is listed as the managing co-owner. The NPFC called Mr. Hallmark at 703-608-0400 and 703-760-7620 and received a message that stated he is out indefinitely therefore the NPFC left a message to contact our office when possible.

THE CLAIM: On 14 August 2013, OMI Environmental Solutions (OMI) presented a removal cost claim to the National Pollution Funds Center (NPFC), for reimbursement of their uncompensated removal costs in the amount of \$6,368.60 for the services provided from approximately October 15, 2011 through October 21, 2011. A copy of the vendor rate schedule is included with this claim.

The review of the actual cost invoicing and dailies focused on: (1) whether the actions taken were compensable "removal actions" under OPA and the claims regulations at 33 CFR 136 (e.g., actions to prevent, minimize, mitigate the effects of the incident); (2) whether the costs were incurred as a result of these actions; (3) whether the actions taken were consistent with the NCP or directed by the FOSC, and (4) whether the costs were adequately documented.

APPLICABLE LAW:

Under OPA 90, at 33 USC § 2702(a), responsible parties are liable for removal costs and damages resulting from the discharge of oil into navigable waters and adjoining shorelines, as described in Section 2702(b) of OPA 90. A responsible party's liability will include "removal costs incurred by any person for acts taken by the person which are consistent with the National Contingency Plan". 33 USC § 2702(b)(1)(B).

"Oil" is defined in relevant part, at 33 USC § 2701(23), to mean "oil of any kind or in any form, including petroleum, fuel oil, sludge, oil refuse, and oil mixed with wastes other than dredged spoil".

The Oil Spill Liability Trust Fund (OSLTF), which is administered by the NPFC, is available, pursuant to 33 USC §§ 2712(a)(4) and 2713 and the OSLTF claims adjudication regulations at 33 CFR Part 136, to pay claims for uncompensated removal costs that are determined to be consistent with the National Contingency Plan and uncompensated damages. Removal costs are defined as "the costs of removal that are incurred after a discharge of oil has occurred or, in any case in which there is a substantial threat of a discharge of oil, the costs to prevent, minimize, or mitigate oil pollution from an incident".

Under 33 USC §2713(b)(2) and 33 CFR 136.103(d) no claim against the OSLTF may be approved or certified for payment during the pendency of an action by the claimant in court to recover the same costs that are the subject of the claim. See also, 33 USC §2713(c) and 33 CFR 136.103(c)(2) [claimant election].

33 U.S.C. §2713(d) provides that "If a claim is presented in accordance with this section, including a claim for interim, short-term damages representing less than the full amount of damages to which the claimant ultimately may be entitled, and full and adequate compensation is unavailable, a claim for the uncompensated damages and removal costs may be presented to the Fund."

Under 33 CFR 136.105(a) and 136.105(e)(6), the claimant bears the burden of providing to the NPFC, all evidence, information, and documentation deemed necessary by the Director, NPFC, to support the claim.

Under 33 CFR 136.105(b) each claim must be in writing, for a sum certain for each category of uncompensated damages or removal costs resulting from an incident. In addition, under 33 CFR 136, the claimant bears the burden to prove the removal actions were reasonable in response to the scope of the oil spill incident, and the NPFC has the authority and responsibility to perform a

reasonableness determination. Specifically, under 33 CFR 136.203, “a claimant must establish -

- (a) That the actions taken were necessary to prevent, minimize, or mitigate the effects of the incident;
- (b) That the removal costs were incurred as a result of these actions;
- (c) That the actions taken were determined by the FOSC to be consistent with the National Contingency Plan or were directed by the FOSC.”

Under 33 CFR 136.205 “the amount of compensation allowable is the total of uncompensated *reasonable* removal costs of actions taken that were determined by the FOSC to be consistent with the National Contingency Plan or were directed by the FOSC. Except in exceptional circumstances, removal *activities* for which costs are being claimed must have been coordinated with the FOSC.” [Emphasis added].

DETERMINATION OF LOSS:

A. Overview:

1. The NPFC has determined that the actions undertaken by the Claimant are deemed consistent with the NCP. This determination is made in accordance with the Delegation of Authority for Determination of Consistency with the NCP for the payment of uncompensated removal cost claims and is consistent with the provisions of sections 1002(b)(1)(B) and 1012(a)(4) of OPA, 33 U.S.C. §§ 2702(b)(1)(B) and 2712(a)(4).
2. The incident involved the report of a discharge and substantial threat of discharge of “oil” as defined in OPA 90, 33 U.S.C. § 2701(23), to navigable waters.
3. The claim was submitted within the six year statute of limitations. 33 U.S.C. § 2712(h)(1)
4. A Responsible Party was determined for this incident. 33 U.S.C. § 2701(32).
5. In accordance with 33 CFR § 136.105(e)(12), the claimant has certified no suit has been filed in court for the claimed uncompensated removal costs.
6. The NPFC Claims Manager has thoroughly reviewed all documentation submitted with the claim and determined that the removal costs presented were for actions in accordance with the NCP, and if the costs for these actions were indeed reasonable and allowable under OPA and 33 CFR § 136.205.

B. Analysis:

NPFC CA reviewed the actual cost invoices and dailies to confirm that the claimant had incurred all costs claimed. The review focused on: (1) whether the actions taken were compensable “removal actions” under OPA and the claims regulations at 33 CFR 136 (e.g., actions to prevent, minimize, mitigate the effects of the incident); (2)

whether the costs were incurred as a result of these actions; (3) whether the actions taken were determined by the FOOSC to be consistent with the NCP or directed by the FOOSC, and (4) whether the costs were adequately documented and reasonable.

Upon review of the claim submission, the NPFC has determined that the costs presented and incurred were billed in accordance with the rate schedule in place at the time services were rendered. The NPFC also determined that the actions taken by the Claimant were reasonable and necessary in order to mitigate the discharge and continuing threat of discharge to the environment.

On that basis, the Claims Manager hereby determines that the Claimant did in fact incur \$6,368.60 of uncompensated removal costs and that that amount is payable by the OSLTF as full compensation for the reimbursable removal costs incurred by the Claimant and presented to the NPFC under claim #913082-0001. The Claimant states that all costs claimed are for uncompensated removal costs incurred by the Claimant for this incident from approximately October 15, 2011 through October 21, 2011. The Claimant represents that all costs paid by the Claimant are compensable removal costs, payable by the OSLTF as presented by the Claimant.
