

Modifications to the HIV contract will allow us to use the specimen storage services of the Department of Defense Serum Repository (DoDSR).

For **PRE-DEPLOYMENT HIV** specimens, the standard test **HIV-1/O/2** is ordered but the SPECIMEN SOURCE CODE selected will be "N". The HIV screening test will be performed and the remaining serum will be placed in storage at the DoDSR.

Ordering in PGUI: Enter Lab Order "CDD" or "HIV" to order the HIV 1/O/2, then select "N" for the Specimen Source Code in the Additional Information screen.

Ordering **PRE-DEPLOYMENT HIV** in CHCS:

TEST,TEST1 F Age:26 20/555-55-5555 OUTPAT POL

CHOOSE DEFAULTS, or Press Return for Full Screen Entry (required for Anatomic Pathology, Blood Bank, and all Continuous lab tests.)

DATE/TIME OF TEST (NOW, AM, QAM or Date&Time): **NOW**

Collection Method: SEND PATIENT TO LAB// **SEND PATIENT TO LAB**
COLLECTION PRIORITY: ROUTINE// **ROUTINE**
PROCESSING PRIORITY: ROUTINE// **ROUTINE**
ORDER COMMENT:

Select LABORATORY TEST: **CDD**

- 1 CDD HIV-1/0/2
- 2 CDD POST-DEPLOYMENT SAMPLE

Choose 1-2: 1

TEST,TEST1 F 20/555-55-5555 26
Test: HIV-1/0/2 Coll Sample: BLOOD

Order Required Data:
Enter the Specimen Source Code:
← **Enter "N" here**

(Entering "??" will give you the following picklist:

- F_FORCE SCREENING
- I_CLINICALLY INDICATED
- N_PRE-DEPLOYMENT SAMPL

For **POST-DEPLOYMENT HIV** specimens, the test to order is **POST-DEPLOYMENT SAMPLE** and the code to be entered when prompted is "H". This sample will be NOT have the HIV screen performed but will be placed in storage at the DoDSR.

Ordering in PGUI: Enter Lab Order "CDD", "HIV" or "PD" to order the POST-DEPLOYMENT SAMPLE test. "H_POST-DEPLOYMENT" is the only Source Code available for this test.
