

U. S. COAST GUARD

DRAFT FINDING OF NO SIGNIFICANT IMPACT

FOR

AMBASSADOR BRIDGE ENHANCEMENT PROJECT

Proposed construction of a companion bridge adjacent to the existing Ambassador Bridge across the Detroit River in a previously approved international corridor between the City of Detroit, Wayne County, Michigan, United States, and the City of Windsor, Ontario, Canada.

This project has been thoroughly reviewed by the Coast Guard and it has been determined, by the undersigned, that this project will have no significant effect on the human environment.

This Finding of No Significant Impact is based on the attached applicant prepared Environmental Assessment, which has been independently evaluated by the Coast Guard, and the Coast Guard prepared Environmental Assessment Reevaluation. The documents have been determined to adequately and accurately discuss the environmental issues and impacts of the proposed project and provide sufficient evidence and analysis for determining that an Environmental Impact Statement is not required.
