Subject: [Non-DoD Source] NO to second bridge span
Date: Thursday, February 11, 2016 12:43:55 AM

Hello,

As a resident of Southwest Detroit, I would like to say that I am in complete disagreement with any proposal for the a second span of the Ambassador Bridge. Already our community suffers the ill effects of truck traffic, resulting in noise pollution, unsafe streets, not to mention increased particulate matter in the air, leading to health concerns, including high rates of asthma. We already are moving forward with plans to construct the new Gordie Howe bridge, a second ambassador bridge is unnecessary and would severely decrease the quality of life for my community.

Thank you,
Sarah Hayosh
