Subject: [Non-DoD Source] Second Ambassador bridge span
Date: Saturday, February 20, 2016 12:03:59 PM

Hello,

I am a 30 year resident of Southwest Detroit, and I would absolutely not want to see the old bridge twinned.

we here deal with incredible amounts of pollution as it is, we are struggling to have the state do right by us when it comes to the new Gordie Howe bridge. At what point will the government realize that our lives, our lungs matter. Show me the history where things are ever done right when it comes to poor people and I will say o.k to a second span.
