I am writing to urge you to reject the permit to build a second ambassador bridge span. This permit is not for residents of the Detroit or Michigan community, it is an endeavor by Matty Moroun to continue to line his own pockets at the expense of our health and our environment. People have been suffering for years because of the current Ambassador Bridge and the last thing we need is yet another bridge that will result in more pollution in our air. You must do what is right for the people of the city of Detroit and Michigan and reject this permit.
