

New Orleans – The Gulf Strike Team joined more than 16 law enforcement agencies to conduct maritime security operations in the downtown New Orleans area during Super Bowl XLVII. The team directly supported the Maritime Security Operations Center (MSOC) by providing CBRN reconnaissance and monitoring in key port areas, including critical infrastructure, for several days leading up to the event. The team was assigned to patrol the Canal St. ferries, the NFL Experience at the Convention Center and Super Bowl Boulevard at Woldenberg Riverfront Park. The multi-agency operation was a great success and provided a coordinated safe and secure environment for Super Bowl participants and the general public.
