As part of a nationwide restructuring and centralization of the Mariner Licensing and documentation (MLD) Program, REC Juneau became a field unit of the National Maritime Center (NMC), located in Martinsburg, West Virginia in April of this year. REC Juneau is now operating as a storefront operation where the staffs will help the mariner ensure their application is ready for evaluation before forwarding to the NMC. The REC will also administer professional examinations to mariners as part of the credentialing process.

For more information on improvements we're making to MLD Program go to our web site at <http://www.uscg.mil/nmc> or to <http://homeport.uscg.mil> and select Merchant Mariners under the list of Missions.

The Coast Guard is committed to improving the MLD Program through the restructuring and centralization project. We thank you for challenging us to improve; we ask for your patience as we do.

Sincerely

David C. Stalfort  
Captain, U. S. Coast Guard
